

concern for acute exposure because the acute RfD represents the level at or below which a single daily exposure will not pose appreciable risk to human health. Additionally, the potential contribution of fenbuconazole residues in drinking water is expected to be minimal. Using a slight refinement for PCT, the cancer risk assessment is 6.9×10^{-7} . Generally the Agency has no concern for exposures that result in a cancer risk estimate below 1×10^{-6} . Including the potential for exposure in drinking water, the cancer risk is not expected to exceed 1×10^{-6} for the U.S. population as a whole.

2. *Infants and children.* In assessing the potential for additional sensitivity of infants and children to residues of fenbuconazole, data from developmental toxicity studies in rats and rabbits and a 2-generation reproduction study in the rat are considered. The developmental toxicity studies are designed to evaluate adverse effects on the developing organism resulting from pesticide exposure during prenatal development. Reproduction studies provide information relating to effects from exposure to the pesticide on the reproductive capability and potential systemic toxicity of mating animals and on various parameters associated with the well-being of offspring. The completeness and adequacy of the toxicity database is also considered. No indication of increased susceptibility to infants and children was noted in these studies for fenbuconazole. EPA has previously determined that no additional safety factor to protect infants and children is necessary for fenbuconazole and that the RfD of 0.03 mg/kg/day is appropriate for assessing risk to infants and children.

F. International Tolerances

International CODEX values are established for apricot, banana, barley, barley straw and fodder, cattle fat, meat, milk and edible offal, cherries, cucumber, eggs, grapes, melon except watermelon, peach, plum, pome fruits, poultry fat, meat and edible offal, rape seed, rye, summer squash, sunflower, and wheat.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority.

November 9, 2004.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Pub. L. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before January 18, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554 or via the Internet to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams at 202-418-2918 or via the Internet at Cathy.Williams@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0216.

Title: Section 73.3538, Application to Make Changes in an Existing Station.

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions.

Number of Respondents: 50.

Estimated Time per Response: 1 hour.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 50 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: No impact(s).

Needs and Uses: On February 14, 2001, the Commission adopted a *Report and Order*, In the Matter of An Inquiry Into the Commission's Policies and Rules Regarding AM Radio Service Directional Antenna Performance Verification, MM Docket No. 93-177. This *Report and Order* relaxed the technical requirements for AM stations using directional antennas. Among other things, this *Report and Order* eliminated the need to file an informal application to specify new AM station directional antenna field monitoring points. 47 CFR Section 73.3538(b) requires a broadcast station to file an informal application to modify or discontinue the obstruction marking or lighting of an antenna supporting structure. The requirement to file an informal application to relocate the main studio outside the principal community contour has approval under 47 CFR Section 73.1125 (3060-0171). The data is used by FCC staff to ensure that the modification or discontinuance of the obstruction marking or lighting will not cause a menace to air navigation.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
