

DATES: To be considered, applications must be received or postmarked by 5 p.m. on September 24, 2004.

ADDRESSES: Applications must be submitted to the Industry Assessment Division, Office of Textiles and Apparel, Room 3001, United States Department of Commerce, Washington, DC 20230 (telephone: (202) 482-4058). Application forms may be obtained from that office (via facsimile or mail) or from the following Internet address: <http://web.ita.doc.gov/tacgi/wooltrq.nsf/TRQApp>.

FOR FURTHER INFORMATION CONTACT: Sergio Botero, Office of Textiles and Apparel, U.S. Department of Commerce, (202) 482-4058.

SUPPLEMENTARY INFORMATION:

BACKGROUND:

Title V of the Trade and Development Act of 2000 (the Act) created two tariff rate quotas (TRQs), providing for temporary reductions in the import duties on limited quantities of two categories of worsted wool fabrics suitable for use in making suits, suit-type jackets, or trousers: (1) For worsted wool fabric with average fiber diameters greater than 18.5 microns (Harmonized Tariff Schedule of the United States (HTS) heading 9902.51.11); and (2) for worsted wool fabric with average fiber diameters of 18.5 microns or less (HTS heading 9902.51.12). On August 6, 2002, President Bush signed into law the Trade Act of 2002, which includes several amendments to Title V of the Act. These include the extension of the program through 2005; the reduction of the in-quota duty rate on HTS 9902.51.12 (average fiber diameter 18.5 microns or less) from 6 percent to zero, effective for goods entered, or withdrawn from warehouse for consumption, on or after January 1, 2002; and an increase in the 2004 and 2005 TRQ levels to 3,500,000 square meters for HTS 9902.51.12 and to 4,500,000 square meters for HTS 9902.51.11. These levels may be modified by the President. See 15 CFR 340.

The Act requires that the TRQs be allocated to persons who cut and sew men's and boys' worsted wool suits, suit-type jackets and trousers in the United States. On January 22, 2001 the Department published regulations establishing procedures for allocating the TRQs. 66 FR 6459, 15 CFR 335. In order to be eligible for an allocation, an applicant must submit an application on the form provided at <http://web.ita.doc.gov/tacgi/wooltrq.nsf/TRQApp> to the address listed above by 5 p.m. on September 24, 2004 in

compliance with the requirements of 15 CFR 335. Any business confidential information that is marked "business confidential" will be kept confidential and protected from disclosure to the full extent permitted by law.

Dated: August 20, 2004.

James C. Leonard III,
Deputy Assistant Secretary for Textiles and Apparel.

Notice of Government Owned Inventions Available for Licensing

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice of government owned inventions available for licensing.

SUMMARY: The inventions listed below are owned in whole by the U.S. Government, as represented by the Department of Commerce. The inventions are available for licensing in accordance with 35 U.S.C. 207 and 37 CFR part 404 to achieve expeditious commercialization of results of federally funded research and development.

FOR FURTHER INFORMATION CONTACT: Technical and licensing information on these inventions may be obtained by writing to: National Institute of Standards and Technology, Office of Technology Partnerships, Attn: Mary Clague, Building 820, Room 213, Gaithersburg, MD 20899. Information is also available via telephone: 301-975-4188, fax 301-869-2751, or e-mail: mary.clague@nist.gov. Any request for information should include the NIST Docket number and title for the invention as indicated below.

SUPPLEMENTARY INFORMATION: NIST may enter into a Cooperative Research and Development Agreement ("CRADA") with the licensee to perform further research on the invention for purposes of commercialization. The inventions available for licensing are:

[NIST Docket Number: 02-011]

Title: Superconformal Metal Deposition Using Derivitized Substrates.

Abstract: The invention provides a two-step superconformal process for depositing seam-free and void-free metal microelectronic conductors. The process involves first adsorbing a catalyst on the surface of the specimen by immersion in a catalyst-containing solution, followed by electrolytic metal

deposition in a catalyst-free second solution containing suppressors.

[NIST Docket Number: 03-012]

Title: System And Method For Authenticating Users Using Image Selection.

Abstract: The invention is a general-purpose mechanism for authenticating users through the selection of a sequence of images from a displayed assembly of images. While specifically aimed at hand-held devices, the visual log-in technique is suitable for most computing platforms that require user authentication. The technique takes the image sequences selected by the user and formulates a password that is dependent on both the sequence and style of their selection. Moreover, the invention allows the same image sequence to be used repeatedly in a password change dialogue, yet generate a completely different password value each time. The invention also introduces a new way of "salting" passwords to make them less vulnerable to attack, which can be readily incorporated into the password derivation process.

Dated: August 18, 2004.

Hratch G. Semerjian,
Acting Director.

Manufacturing Extension Partnership National Advisory Board

AGENCY: National Institute of Standards and Technology, Department of Commerce.

ACTION: Notice of partially closed meeting.

SUMMARY: Pursuant to the Federal Advisory Committee Act, 5 U.S.C. app. 2, notice is hereby given that the Manufacturing Extension Partnership National Advisory Board (MEPNAB), National Institute of Standards and Technology (NIST), will meet Thursday, September 23, 2004, from 8:30 a.m. to 3:30 p.m. The MEPNAB is composed of nine members appointed by the Director of NIST who were selected for their expertise in the area of industrial extension and their work on behalf of smaller manufacturers. The Board was established to fill a need for outside input on MEP. MEP is a unique program consisting of centers in all 50 states and Puerto Rico. The centers have been created by state, federal, and local
