

City, MO, to inform their practices for Impact-Based Decision Support Services (IDSS) and to improve the information and services it provides to members of the Weather Enterprise. Importantly, data collected will help assist NWS in developing new forecaster training modules, situational awareness information, and best practices for Impact-Based Decision Support with partners. This is a necessary step in improving risk communication among expert groups, which, in turn, benefits vulnerable populations who ultimately must act quickly and safely to adjudicate which risks pose the greatest threat to them as the threats evolve. Data collected from both populations will also be used for the practical utility of the government through semi-annual reports to NOAA to evaluate proposed metrics of success for completing the grant relative to progress to data. Conference presentations about findings will be made to the American Meteorological Society, National Weather Association, and related emergency manager conferences; webinars of best practices and situational awareness opportunities to partner or NWS offices; and insights about the challenges of communicating and preparing the public for compound hazards reported to peer reviewed publications in professional journals.

Affected Public: Business or other for-profit organizations; State, Local, or Tribal government; Federal government.

Frequency: One time.

Respondent's Obligation: Voluntary.

Legal Authority: 15 U.S.C. chapter 111, Weather Research and Forecasting Information.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering the title of the collection.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.
