DEPARTMENT OF ENERGY

Energy Information Administration

Agency Information Collection Proposed Extension

AGENCY: U.S. Energy Information Administration (EIA), Department of Energy (DOE).

ACTION: Notice and request for comments.

SUMMARY: DOE invites public comment on the proposed three-year extension, without change, to the Form FE–746R, “Natural Gas Imports and Exports,” as required under the Paperwork Reduction Act of 1995. This information collection request supports DOE’s Office of Fossil Energy and Carbon Management (FECM) in gathering critical information on the U.S. trade in natural gas, including liquefied natural gas (LNG). The data are used to monitor natural gas trade, assess the adequacy of U.S. energy resources to meet near and longer term domestic demands, and support various market and regulatory analyses done by FECM.

DATES: DOE must receive all comments on this proposed information collection no later than September 29, 2025. If you anticipate any difficulties in submitting your comments by the deadline, contact the person listed in the **ADDRESSES** section of this notice as soon as possible.

ADDRESSES: You may submit comments, identified by OMB control 1901–0294, by email at tu.tran@hq.doe.gov. Include

the OMB control number listed in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Tu Tran, (202) 235–5873, tu.tran@hq.doe.gov. The forms and instructions are available on DOE’s website at <https://www.energy.gov/fecm/articles/fe-746-data-collection-omb-clearance-process>.

SUPPLEMENTARY INFORMATION: This information collection request contains:

- (1) *OMB No.:* 1901–0294.
- (2) *Information Collection Request Title:* Natural Gas Imports and Exports.
- (3) *Type of Request:* Three-year extension without change.

(4) *Purpose:* The Form FE–746R Natural Gas Imports and Exports collect information on the imports and exports of natural gas, including LNG, under the Natural Gas Act (NGA) (15 U.S.C. 717b).

The Federal Energy Administration Act of 1974 (15 U.S.C. 761 *et seq.*) and the DOE Organization Act (42 U.S.C. 7101 *et seq.*) require DOE to carry out a centralized, comprehensive, and unified energy information program. This program collects, evaluates, assembles, analyzes, and disseminates information on energy resource reserves, production, demand, technology, and related economic and statistical information.

Under section 3 of the NGA, DOE is authorized to regulate natural gas imports and exports, including LNG. To carry out DOE’s statutory responsibilities, FECM (through its delegated authority) implements regulations (10 CFR part 590) that require any person seeking to import or export natural gas to file an application requesting authorization. The application requires information on the scope and nature of the proposed import/export activity. Additionally, once an importer or exporter receives an authorization from DOE under the NGA, the authorization holder is required to submit monthly reports of all import and/or export transactions on Form FE–746–R.

Form FE–746R has different reporting formats, corresponding to different import and export activities. Generally, however, Form FE–746–R requires the reporting of the following information for the authorized imports or exports on a monthly basis: name of importer/exporter; country of origin/destination; international point of entry/exit; name of supplier; volume; price; transporters; U.S. geographic market(s) served; and duration of supply contract. More information about the Form FE–746R reporting requirements is available at: <https://www.energy.gov/fecm/guidelines-filing-monthly-reports>.
