SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-48958; File No. SR-NYSE-2003-29]

Self-Regulatory Organizations; New York Stock Exchange Inc.; Notice of Filing of Proposed Rule Change to Amend Rule 412 and its Interpretation Relating to Partial Customer Account Transfers

December 18, 2003.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on October 1, 2003, the New York Stock Exchange Inc. ("NYSE") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared primarily by the NYSE. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

NYSE proposes to amend Rule 412 and the Interpretation of Rule 412 in order to apply the same procedural standards regarding use of the Automated Customer Account Transfer System ("ACATS") to both standard and partial customer account transfers.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NYSE included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The NYSE has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.²

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

Rule 412 of the NYSE's Rules ("Customer Account Transfer Contracts") prescribes procedures for member organizations to transfer customer accounts. It requires use of the Automated Customer Account Transfer Service ("ACATS"), an electronic system administered by the National Securities Clearing Corporation ("NSCC") to facilitate the transfer of customer assets between broker-dealers. Since its inception in 1985, numerous enhancements to ACATS and to Rule 412 allowed for faster and more efficient transfers of customer accounts. For example, the most recent amendments to the Interpretation of Rule 412 have provided for the expedited transfer of accounts containing third party or proprietary products (e.g., mutual funds).³

Currently, the requirements of Rule 412 and its Interpretation apply only to "standard" transfers (i.e., instances where account assets in their entirety are transferred from one member organization to another) processed through ACATS. While ACATS is also utilized to process "partial" or "non-standard" transfers (i.e., the transfer of

specifically designated assets from an account held at one member organization to an account held at another member organization), Rule 412 currently does not require that partial transfers be accomplished in accordance with Rule 412 timeframes and does not require use of automated processing capabilities of ACATS.

There is strong industry support to generally apply the same procedural standards, where applicable, to both standard and partial transfers of customer account assets. NYSE has worked closely with industry representatives in the development of amendments to that purpose. The proposed amendments are expected to significantly expedite partial transfers and to increase accountability through use of ACATS. This, in turn, will improve customers' services and will reduce customers' problems related to transfers.

1. Partial Transfers

The requirements of Rule 412 and its Interpretation, as currently applied to standard transactions, include specified response times between a delivering and a receiving firm within which to verify assets, resolve discrepancies, and complete the transfer. Standard transfers processed through ACATS are also subject to the automated processing of transfer-related fails (e.g., monies posted by a delivering firm where the security to be transferred is not transferred), reclaims (e.g., claims by delivering firm for the return of securities transferred), and of residual credits (e.g., transfer of dividends, etc., received after an account has been transferred).

The NYSE proposes to amend Rule 412 and its Interpretation that would generally apply the same procedural standards to both standard and partial transfers processed through ACATS. The proposed amendments would mandate use of ACATS for partial transfers unless otherwise specifically requested by a customer.⁴ For example, customers would not be precluded from using alternate authorized instructions to effect partial transfers.

However, certain aspects of Rule 412 and its Interpretation, as proposed to be amended, would be applicable to standard transfers but not partial transfers. The amendments would

⁴ As proposed, Rule 412(e)(1) would provide for an exception to the members' obligation to accomplish transfers in accordance with NSCC's rules when the customer authorizes alternative instructions to transfer "specifically designated assets." The phrase "specifically designated assets" refers to partial transfers only. Telephone conversation between the NYSE, NSCC, and Commission staff (November 20, 2003).
