BILLING CODE 70386-01-M

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-317, 50-318, and 72-8]

**Baltimore Gas and Electric Company,
Calvert Cliffs Nuclear Power Plant, Unit
Nos. 1 and 2 and Calvert Cliffs
Independent Spent Fuel Storage
Installation; Notice of Consideration of
Approval of Transfer of Renewed
Facility Operating Licenses and
Materials License and Conforming
Amendment, and Opportunity for a
Hearing**

The U.S. Nuclear Regulatory Commission (the Commission) is considering the issuance of an order under 10 CFR 50.80 approving the transfer of Renewed Facility Operating Licenses Nos. DPR-53 and DPR-69 for the Calvert Cliffs Nuclear Power Plant, Unit Nos. 1 and 2 (CCNPP), and Materials License No. SNM-2505 for the Calvert Cliffs Independent Spent Fuel Storage Installation (ISFSI) currently held by Baltimore Gas and Electric Company (BGE), as owner and licensed operator of CCNPP and the ISFSI. The transfer would be to Calvert Cliffs, Inc. The Commission is also considering amending the licenses and Technical Specifications (TSs) for administrative purposes to reflect the proposed transfer.

By application dated February 29, 2000, as supplemented April 7, 2000, BGE requested the Commission's approval of the proposed license transfers as part of the corporate restructuring of BGE in accordance with Maryland's Electric Customer Choice and Competition Act of 1999. Under this restructuring, Constellation Energy Group, Inc. ("Constellation Energy"), the parent of BGE, has formed a wholly owned subsidiary, Constellation Nuclear Group, LLC ("CN"). BGE proposes to transfer ownership of and the licenses for CCNPP and the ISFSI to a subsidiary of BGE, Calvert Cliffs, Inc. ("Company"). BGE will then transfer the ownership of Company to Constellation Energy, which in turn will transfer the ownership of Company to CN. The result will be that CN, as owned by Constellation Energy, will own Company, which will be the owner and licensee of CCNPP and the ISFSI.

The proposed amendments would revise the licenses and the ISFSI TSs, to reflect their transfer from BGE to Company.

Pursuant to 10 CFR 50.80 and 10 CFR 72.50, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the Commission shall give its consent in writing. The Commission will approve an application for the transfer of a license, if the Commission determines that the proposed transferee is qualified to be the holder of the license, and that the transfer is otherwise consistent with applicable provisions of law, regulations, and orders issued by the Commission pursuant thereto.

Before issuance of the proposed conforming license amendments, the Commission will have made findings required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's regulations.

As provided in 10 CFR 2.1315, unless otherwise determined by the Commission with regard to a specific application, the Commission has determined that any amendment to the license of a utilization facility or the license of an ISFSI which does no more than conform the license to reflect the transfer action, involves respectively, "no significant hazards consideration" or "no genuine issue as to whether the health and safety of the public will be significantly affected." No contrary determination has been made with respect to this specific license amendment application. In light of the generic determinations reflected in 10 CFR 2.1315, no public comments with respect to significant hazards considerations are being solicited, notwithstanding the general comment procedures contained in 10 CFR 50.91.

The filing of requests for hearing and petitions for leave to intervene, and written comments with regard to the license transfer application, are discussed below.

By May 24, 2000, any person whose interest may be affected by the Commission's action on the application may request a hearing, and, if not the applicants, may petition for leave to intervene in a hearing proceeding on the Commission's action. Requests for a hearing and petitions for leave to intervene should be filed in accordance with the Commission's rules of practice set forth in Subpart M, "Public Notification, Availability of Documents and Records, Hearing Requests and Procedures for Hearings on License Transfer Applications," of 10 CFR part 2. In particular, such requests and petitions must comply with the
