SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the PMAE. The National Park Service is not responsible for the determinations in this notice. Additional information on the amendments and determinations in this notice, including the results of consultation, can be found in the inventory or related records held by the PMAE.

Description

The eight cultural items were removed from the Moundville archeological site in Hale and Tuscaloosa Counties, AL. The eight unassociated funerary objects are two discoidal stones, one bird-head effigy, three stone effigy pipes, one incised palette, and one lot of shell beads. The PMAE does not have a record of human remains from Moundville being at PMAE.

On an unknown date, Professor N.T. Lupton collected a discoidal stone from a pot in a mound in Carthage, AL. The PMAE does not have a record of the associated pot being at PMAE. The Moundville archeological site was referred to as "the Carthage group" through the second half of the nineteenth century. This funerary object was donated by Professor N.T. Lupton to the PMAE in October 1877.

On an unknown date in or around 1860, O.T. Prince collected one bird-head effigy from near Moundville, AL. On an unknown date in or around 1860, a possibly enslaved worker of O.T. Prince or O.T. Prince collected three stone effigy pipes, found while digging a ditch near Mound M of the Moundville site, AL. On an unknown date, the family of O.T. Prince collected one engraved stone disc ("The Willoughby Disc") from the base of a small mound near Moundville, Carthage, AL. On an unknown date, the family of O.T. Prince collected one discoidal stone and one lot of shell beads from near Moundville, Carthage, AL. O.T. Prince was the landowner of a

portion of the Moundville-site property from 1857-1862. Given this, it is likely that these localities refer specifically to the mounds or fields between mounds on the Prince estate at the Moundville site. On an unknown date, these seven unassociated funerary objects were acquired by F.E. Hyde and Charles P. Bowditch and donated by Mr. Hyde and Mr. Bowditch to the PMAE on an unknown date in 1896.

Cultural Affiliation

The cultural items in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: anthropological information, archeological information, biological information, geographical information, historical information, kinship, linguistics, oral tradition, and other relevant information and/or expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the PMAE has determined that:

- The eight cultural items described above are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.
- There is a relationship of shared group identity that can be reasonably traced between the cultural items and the present-day Muskogean speaking Tribes: Alabama-Coushatta Tribe of Texas (*previously* listed as Alabama-Coushatta Tribes of Texas); Alabama-Quassarte Tribal Town; Coushatta Tribe of Louisiana; Jena Band of Choctaw Indians; Seminole Tribe of Florida (*previously* listed as Seminole Tribe of Florida (Dania, Big Cypress, Brighton, Hollywood, & Tampa Reservations)); The Chickasaw Nation; The Choctaw Nation of Oklahoma; The Muscogee (Creek) Nation; The Seminole Nation of Oklahoma; and the Thlopthlocco Tribal Town.

Requests for Repatriation

Additional, written requests for repatriation of the cultural items in this

notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the cultural items in this notice to a requestor may occur on or after January 17, 2023. If competing requests for repatriation are received, the PMAE must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the cultural items are considered a single request and not competing requests. The PMAE is responsible for sending a copy of this notice to the Indian Tribes and Native Hawaiian organizations identified in this notice.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3003, and the implementing regulations, 43 CFR 10.8, 10.10, and 10.14.

Notice of Inventory Completion: Alabama Department of Transportation, Montgomery, AL

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The Alabama Department of Transportation (ALDOT) has completed an inventory of human remains, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations and has determined that there is a cultural affiliation between the human remains and present-day Indian Tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to ALDOT. If no additional requestors come forward, transfer of control of the human remains to the lineal descendants, Indian Tribes, or

Native Hawaiian organizations stated in this notice may proceed.

DATES: Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to ALDOT at the address in this notice by January 17, 2023.

ADDRESSES: William B. Turner, Alabama Department of Transportation, 1409 Coliseum Blvd., Montgomery, AL 36110, telephone (334) 242-6144, email turnerw@dot.state.al.us.

SUPPLEMENTARY INFORMATION: Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of the Alabama Department of Transportation, Montgomery, AL. The human remains were removed from Baldwin County, AL.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations in this notice.

Consultation

A detailed assessment of the human remains was made by Alabama Department of Transportation and the University of Alabama professional staff in consultation with representatives of The Choctaw Nation of Oklahoma.

History and Description of the Remains

During the summer of 1974, human remains representing, at minimum, 10 individuals were removed from the D'Olive Creek site, 1Ba196, in Baldwin County, AL. Burials were removed by University of Alabama archeologists under contract to ALDOT during Phase III Data Recovery excavations conducted prior to construction of Interstate 10 across Mobile Bay, near the city of Daphne. In 1975, the collection was obtained by University of Alabama in 1975, and in 2022, ALDOT assumed control. No known individuals were identified. No associated funerary objects were recovered.

The D'Olive Creek site, 1Ba196, is a shell midden occupied during the Late Woodland and Mississippian periods. Some evidence of European contact is indicated by possible French trade artifacts. Cultural affiliation of these

human remains with The Choctaw Nation of Oklahoma is based on the location of their discovery and the time periods represented by the artifacts recovered from the site.

Determinations Made by the Alabama Department of Transportation

Officials of the Alabama Department of Transportation have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 10 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and The Choctaw Nation of Oklahoma.

Additional Requestors and Disposition

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to William B. Turner, Alabama Department of Transportation, 1409 Coliseum Blvd., Montgomery, AL 36110, telephone (334) 242-6144, email turnerw@dot.state.al.us, by January 17, 2023. After that date, if no additional requestors have come forward, transfer of control of the human remains to The Choctaw Nation of Oklahoma may proceed.

The Alabama Department of Transportation is responsible for notifying The Choctaw Nation of Oklahoma that this notice has been published.

Dated: December 7, 2022.
