

before, all data will be collected once; only changes in the specific data element will require updating. This revision will also facilitate the streamlining of data elements, which will be collected. Specifically, all of the data which is needed on an assembly specific basis will be collected at one time; thereafter referring this data by reference to the assembly serial number.

III. Request for Comments

Prospective respondents and other interested parties should comment on the actions discussed in item II. The following guidelines are provided to assist in the preparation of comments.

General Issues

A. Is the proposed collection of information necessary for the proper performance of the functions of the agency and does the information have practical utility? Practical utility is defined as the actual usefulness of information to or for an agency, taking into account its accuracy, adequacy, reliability, timeliness, and the agency's ability to process the information it collects.

B. What enhancements can be made to the quality, utility, and clarity of the information to be collected?

As a Potential Respondent to the Request for Information

A. Are the instructions and definitions clear and sufficient? If not, which instructions need clarification?

B. Can the information be submitted by the due date?

C. Public reporting burden for this collection is estimated to average 40 hours per response. The estimated burden includes the total time necessary to provide the requested information. In your opinion, how accurate is this estimate?

D. The agency estimates that the only cost to a respondent is for the time it will take to complete the collection. Will a respondent incur any start-up costs for reporting, or any recurring annual costs for operation, maintenance, and purchase of services associated with the information collection?

E. What additional actions could be taken to minimize the burden of this collection of information? Such actions may involve the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

F. Does any other Federal, State, or local agency collect similar information? If so, specify the agency, the data element(s), and the methods of collection.

As a Potential User of the Information To Be Collected

A. Is the information useful at the levels of detail to be collected?

B. For what purpose(s) would the information be used? Be specific.

C. Are there alternate sources for the information and are they useful? If so, what are their weaknesses and/or strengths?

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of the form. They also will become a matter of public record.

Statutory Authority: Section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 (Pub. L. No. 104-13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, December 19, 2000.

Jay H. Casselberry,

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. IC01-546-000, FERC-546]

Proposed Information Collection and Request for Comments

December 19, 2000.

AGENCY: Federal Energy Regulatory Commission, DOE.

ACTION: Notice of proposed information collection and request for comments.

SUMMARY: In compliance with the requirements of Section 3506(c)(2)(a) of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), the Federal Energy Regulatory Commission (Commission) is soliciting public comment on the specific aspects of the information collection described below.

DATES: Consideration will be given to comments submitted on or before February 26, 2001.

ADDRESSES: Copies of the proposed collection of information can be

obtained from and written comments may be submitted to the Federal Energy Regulatory Commission, Attn: Michael Miller, Office of the Chief Information Officer, CI-1, 888 First Street N.E., Washington, DC 20426.

FOR FURTHER INFORMATION CONTACT:

Michael Miller may be reached by telephone at (202) 208-1415, by fax at (202) 208-2425, and by e-mail at mike.miller@ferc.fed.us.

SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC-546 "Certificated Rate Filings: Gas Pipeline Rates" (OMB No. 1902-0155) is used by the Commission to implement the statutory provisions of Title IV of the Natural Gas Policy Act (NGPA), (15 U.S.C. 3301-3432) and Sections 4, 5, and 16 of the Natural Gas Act (NGA) (15 U.S.C. 717-717w). The Commission has the regulatory responsibility under these Acts to ensure that pipeline rates and services are just and reasonable and not unduly discriminatory. Accordingly, jurisdictional natural gas pipeline companies are required to obtain Commission approval for all rates and charges made, or demanded, in connection with the transportation or sale of natural gas in interstate commerce.

Service and tariff revision information necessary for Commission examination and subsequent approval of any certificated pipeline change in service is collected under FERC-546. (Information necessary to examine and approve any change in rates is collected separately under FERC-542 for tracking filings (non-formal), and 544 and 545 for general rate change filings, including NGA Section 4 major rate cases, (formal and non-formal respectively)). The required FERC-546 information is set forth in each pipeline's tariff, and must be filed in compliance with Commission regulations found in 18 CFR Part 154.4; 154.7; 154.202; 154.204-.209; and 154.602-.603.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection remains unchanged from the previous renewal and is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)x(2)x(3)
77	4	40	12,320

The estimated total cost to respondents is: \$683,268 (12,320 hours/2,080 hours per year per employee times \$115,357¹ per year per average employee = \$683,268). The cost per respondent is equal to \$8,874.

The reporting burden includes the total time, effort, or financial resources expended to assemble and disseminate the information including: (1) Reviewing the instructions; (2) developing, or acquiring appropriate technological support systems necessary for the purposes of collecting, validating, processing, and disseminating the information; (3) administration; and (4) transmitting, or otherwise disclosing the information.

The cost estimate for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's burden estimate of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

David P. Boergers,
Secretary.

BILLING CODE 6717-01-M

¹ The cost per year per average employee estimate is based on the annual allocated cost per Commission employee for fiscal year 2001. The estimated \$115,357 cost consists of approximately \$92,286 in salary and \$23,071 in benefits and overhead.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER01-677-000]

American Transmission Company LLC; Notice of Filing

December 19, 2000.

Take notice that on December 18, 2000, American Transmission Company LLC filed Attachment 1 which was inadvertently omitted from its December 15, 2000 filing of proposed Open Access Transmission rates under Section 205 of the Federal Power Act (FPA).

Any person desiring to be heard or to protest such filing should file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, D.C. 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). All such motions and protests should be filed on or before December 27, 2000. Protests will be considered by the Commission to determine the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection. This filing may also be viewed on the Internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments and protests may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

David P. Boergers,
Secretary.

BILLING CODE 6717-01-M

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. RP96-383-017]

Dominion Transmission, Inc.; Notice of Compliance Filing

December 19, 2000.

Take notice that on December 14, 2000, in compliance with the Commission's Letter Order, dated November 30, 2000, in Docket No. RP96-383-014] Dominion Transmission Inc. (DTI) tendered for filing Substitute

Third Revised tariff Sheet No. 1300, together with an explanation of the contractual rights and obligations under a negotiated rate agreement for FT service between DTI and Central Hudson Enterprises Corporation (Central Hudson).

DTI states that Exhibit A to the October 2000 FT Agreement clarifies that the maximum quantities of gas that DTI shall deliver and that Customer may tender are a MDTQ of 15,000 Dt and a MATQ of 5,940,000 DT. DTI notes that these figures are the same as the contract quantities specified on Second Revised Sheet No. 1406, thus alleviating the Commission's concern expressed in the Letter Order. The contract exhibit also clarifies that DTI's obligation is a fixed daily and annual contract maximum quantity entitlement and that DTI is not obligated in any way to provide service at an unstated "full requirements" level.

DTI states that copies of its letter of transmittal and enclosures have been served upon the parties to this proceeding.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. This filing may be viewed on the web at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Comments and protests may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.
