SUPPLEMENTARY INFORMATION:**I. Background**

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information-collection requirement in accordance with the Paperwork Reduction Act of 1995 (PRA-95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and cost) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information-collection burden is correct.

The Material Hoists, Personnel Hoists, and Elevators Standard (*i.e.*, "the Standard") specifies the following paperwork requirements, as well as how they use it.

- **Posting Requirements:** Paragraphs (a)(2) and (c)(10) specifies that the rated load capacities, operating speed and special hazard warning be posted securely on cars, platforms, personnel hoists. Paragraphs (b)(1)(i) specifies that operating rules that have been established be posted at the operator's station of the hoist, such rules shall include signal system, allowable line speed for various loads.

- **Personnel Hoists Records for Test and Inspection:** Paragraph (c)(15) specifies that the employer perform tests and inspection on personnel hoist at no more than 3 month intervals and following any alterations on the equipment. In addition the employer must certify and maintain these records to show the compliance officer upon inspection.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information-collection requirements are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and cost) of the information-collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information-collection and transmission techniques.

III. Proposed Actions

OSHA proposes to extend OMB's previous approval of the recordkeeping (paperwork) requirement specified in the Material Hoists, Personnel Hoists, and Elevators Standard (29 CFR 1926.552). The Agency will summarize the comments submitted in response to this notice, and will include this summary in its request to OMB to extend the approval of this information-collection requirement. The Agency has requested an increase of 14,431 burden hours. It has been determined 3 additional posting requirements, also updated the number of hoists making is consistent with other crane and derrick paperwork packages.

Type of Review: Extension of currently approved information-collection requirements.
