

activities will not have an unmitigable adverse impact on taking for subsistence purposes as no relevant subsistence uses of marine mammals are implicated by this action.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216–6A, NMFS must review our proposed action with respect to environmental consequences on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (incidental take authorizations with no anticipated serious injury or mortality) of the Companion Manual for NAO 216–6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS determined that the issuance of the initial IHA qualified to be categorically excluded from further NEPA review. NMFS has determined that the application of this categorical exclusion remains appropriate for this IHA.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

NMFS Office of Protected Resources previously determined that issuance of the initial 2022 IHA falls within the scope of activities analyzed in NMFS Greater Atlantic Regional Fisheries Office's programmatic consultation regarding geophysical surveys along the U.S. Atlantic coast in the 3 Atlantic Renewable Energy Regions (completed June 29, 2021; revised September 2021).

Authorization

NMFS has issued an IHA to Park City Wind for marine site characterization survey activities associated with the specified activity from March 1, 2024, through February 28, 2025. All previously described mitigation,

monitoring, and reporting requirements from the initial 2022 IHA are incorporated.

The Department is soliciting comments on the proposed information collection request (ICR) that is described below. The Department is especially interested in public comment addressing the following issues: (1) is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use

Title of Collection: Process for FSA ID Account Creation for Individuals without a Social Security Number in Connection with Person Authentication Service (PAS).

OMB Control Number: 1845–0179.

Type of Review: A new information collection request.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 3,500.

Total Estimated Number of Annual Burden Hours: 1,155.

Abstract: The Department of Education (Department) requested emergency processing for this information collection, 1845–0179, Process for FSA ID Account Creation for Individuals without a Social Security Number in Connection with Person Authentication Service (PAS); and therefore, is requesting the 60-day public comment period for the full ICR. Applicants, parents, and borrowers establish an FSA ID, which includes a username and password. The FSA ID is used for the purposes of verifying the identity of the user; allowing users to establish an account with FSA; safeguarding their personally identifiable and financial information; signing applications and loan related documents; providing users access to their information and applications; allowing users to customize or update their accounts with FSA; renewing or revoking a user's account with FSA; and supporting the Federal Student Aid Information Center (FSAIC) help desk functions.

The specific questions that applicants are asked to answer in the FSA ID creation process are described separately in the Creating FSA–ID document, which explains the use of the questions in the application. As part of the standard process, users' information is matched with information from the Social Security Administration (SSA) to confirm their SSA status.

In the event of individuals who do not have a SSN to match, they are instructed to the contact the Department and provide one of the following documents (U.S. State/Territory Driver's License; U.S. State or City Identification Card; Foreign Passport; Municipal identification card; Community ID; or a Consular identification card) and a signed attestation of their identity under the penalty of perjury, as instructed by the Privacy Act.

This collection provides the process and application that individuals

without an SSN may use to acquire an FSA ID to access the statutory and regulatory benefits of the Title IV, HEA student financial assistance programs. The Department received emergency clearance on December 20, 2023, since normal clearance processing would not enable to implement this critical change by the launch of the 2024–25 FAFSA form, which would result in no access to the FAFSA application for individuals who need to get an FSA ID without a Social Security Number. Any delay in getting access to the FAFSA form would increase the potential for public harm through delayed access to student financial aid and the possibility of decreasing the likelihood of postsecondary enrollment. As a result, in order to meet the late-December 2023 form launch, the Department requested that OMB approve the collection associated with non-Social Security Number FSA ID account creation process using the emergency clearance procedures.

Dated: December 20, 2023.

Kun Mullan,

PRA Coordinator, Strategic Collections and Clearance Governance and Strategy Division, Office of Chief Data Officer, Office of Planning, Evaluation and Policy Development.
