

Other Checklist Items.

8. *Checklist Item 1—Interconnection.* Based on the evidence in the record, the Commission finds that Qwest demonstrates that it provides access and interconnection on terms and conditions that are just, reasonable and nondiscriminatory, in accordance with the requirements of section 251(c)(2), and as specified in section 271, and applied in the Commission's prior orders.

9. *Checklist Item 4—Unbundled Local Loops.* The Commission concludes that Qwest provides unbundled local loops in accordance with the requirements of section 271 and our rules. The Commission's conclusion is based on its review of Qwest's performance for all loop types—which include voice grade loops, xDSL-capable loops, and high capacity loops—as well as hot cut provisioning and our review of Qwest's processes for line sharing and line splitting. As of December 31, 2002, competitors have acquired from Qwest and placed into use approximately 106,827 stand-alone unbundled loops in Minnesota.

10. *Checklist Item 14—Resale.* Section 271(c)(2)(B)(xiv) of the Act requires that a BOC make "telecommunications services * * * available for resale in accordance with the requirements of section 251(c)(4) and section 252(d)(3)." Based on the evidence in the record, we conclude that Qwest satisfies the requirements of this checklist item. Qwest has demonstrated that it has satisfied its legal obligation to make retail telecommunications services available for resale to competitive LECs at wholesale rates. Although the Minnesota Commission did not reach consensus on this checklist item, the Commission concludes that Qwest does provide nondiscriminatory access to this checklist item.

11. *Checklist Items 3, 5–13.* An applicant under section 271 must demonstrate that it complies with item 3 (poles, ducts, and conduits), item 5 (unbundled transport), item 6 (unbundled local switching), item 7 (E911/operator services/directory assistance), item 8 (white pages), item 9 (numbering administration), item 10 (data bases and signaling), item 11 (number portability), item 12 (local dialing parity), and item 13 (reciprocal compensation). Based on the evidence in the record, and in accordance with Commission rules and orders concerning compliance with section 271 of the Act, the Commission concludes that Qwest demonstrates that it is in compliance with checklist items 3, 5, 6, 7, 8, 9, 10, 11, 12, and 13 in Minnesota.

Other Statutory Requirements

12. *Section 272 Compliance.* Qwest provides evidence that it maintains the same structural separation and nondiscrimination safeguards in Minnesota as it does in the other twelve states where Qwest has already received section 271 authority. Based on the record before us, the Commission concludes that Qwest has demonstrated that it will comply with the requirements of section 272.

13. *Public Interest Analysis.* The Commission concludes that approval of this application is consistent with the public interest. From its extensive review of the competitive checklist, which embodies the critical elements of market entry under the Act, the Commission finds that barriers to competitive entry in the local exchange markets have been removed and the local exchange markets in Minnesota are open to competition.

14. *Section 271(d)(6) Enforcement Authority.* The Commission also finds that the performance monitoring and enforcement mechanisms developed in Minnesota along with other factors, provide meaningful assurance that Qwest will continue to satisfy the requirements of section 271 after entering the long distance market.

15. *Section 271(d)(6) Enforcement Authority.* The Commission concludes that, working with the State Commission, we will closely monitor Qwest's post-approval compliance to ensure that Qwest continues to meet the conditions required for section 271 approval. It stands ready to exercise its various statutory enforcement powers quickly and decisively if there is evidence that market-opening conditions have not been sustained.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.
