

public and may be inspected during normal business hours at EPA Region VIII, 999 18th Street, Suite 330, Denver, Colorado 80202-2466.

V. Project Review

EPA, Region VIII, will work with the Federal Agencies that may, in the future, provide financial assistance to projects in the designated area. Interagency procedures will be developed in which EPA will be notified of proposed commitments by federal agencies for projects which could contaminate the aquifer. EPA will evaluate such projects and, where necessary, conduct an in-depth review, including soliciting public comments where appropriate. Should EPA determine that a project may contaminate the aquifer, so as to create a significant hazard to public health, no commitment for federal assistance may be entered into. However, a commitment for federal assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not contaminate the aquifer.

Although the project review process cannot be delegated to state or local agencies, the EPA will rely upon any existing or future state and local control mechanisms to the maximum extent possible in protecting the ground-water quality of the aquifer. Included in the review of any federal financially assisted project will be coordination with local agencies. Their comments will be given full consideration, and the Federal review process will attempt to complement and support state and local ground water quality protection mechanisms.

VI. Summary and Discussion of Public Comments

In response to the Public Notice and Public Meeting, three questions were asked during the public meeting, all requesting clarification of "federal financial assistance." Further clarification of "federal financial assistance" was contained in the Responsiveness Summary. No questions or comments were received during the 30 day comment period. No comments objecting to designation were received during any portion of public participation phase of the petition review process.

No data were presented during the public comment period regarding aquifer characteristics, boundary delineation or potential errors of fact presented in the petition.

VII. Economic and Regulatory Impact

Pursuant to the provisions of the Regulatory Flexibility Act (RFA), 5 U.S.C. 605(b), I hereby certify that this designation will not have a significant impact on a substantial number of small entities. For purposes of this Certification, "small entity" shall have the same meaning as given in section 601 of the RFA. This action is only applicable to projects with the potential to impact the Western Uinta Arch Paleozoic Aquifer System Sole Source Aquifer as designated.

The only affected entities will be those businesses, organizations or governmental jurisdictions that request federal financial assistance for projects which have the potential for contaminating the Sole Source Aquifer so as to create a significant hazard to public health. EPA does not expect to be reviewing small isolated commitments of financial assistance on an individual basis, unless a cumulative impact on the aquifer is anticipated; accordingly, the number of affected small entities will be minimal.

For those small entities which are subject to review, the impact of today's action will not be significant. Many projects subject to this review will be preceded by a ground water impact assessment required pursuant to other federal laws, such as the National Environmental Policy Act (NEPA) as amended 42 U.S.C. 4321, *et seq.* Integration of those related review procedures with sole source aquifer review will allow EPA and other federal agencies to avoid delay or duplication of effort in approving financial assistance, thus minimizing any adverse effects on those small entities which are affected. Finally, today's action does not prevent grants of federal financial assistance which may be available to any affected small entity in order to pay for the redesign of the project to assure protection of the aquifer.

Under Executive Order 12866, EPA must judge whether a regulation is "major" and therefore subject to the requirement of a Regulatory Impact Analysis. This regulation is not major because it will not have an annual effect of \$100 million or more on the economy, will not cause any major increase in costs or prices and will not have significant adverse effects on competition, employment, investment, productivity, innovation, or the ability of United States enterprises to compete in domestic or export markets. Today's action only affects the Western Uinta Arch Paleozoic Aquifer System in Summit County, Utah. It provides an additional review of ground water

protection measures, incorporating state and local measures whenever possible, for only those projects which request federal financial assistance.

Dated: November 16, 2000.

William P. Yellowtail,

Regional Administrator, Region VIII.

BILLING CODE 6560-50-U

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted to OMB for Review and Approval

November 21, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before January 2, 2001. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les

Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0392.
Title: 47 CFR 1 Subpart J, Pole Attachment Complaint Procedures.
Form Number: N/A.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit entities; and State, local, or tribal government.
Number of Respondents: 1,381.
Estimate Time Per Response: 0.5 to 35 hours.
Frequency of Response: On occasion reporting requirements; Third party disclosure.
Total Annual Burden: 3,047.
Total Annual Costs: \$267,000.
Needs and Uses: Licensees/ permittees/applicants use FCC Form 346 when applying for authority to construct or make changes in a Low Power Television, TV Translator, or TV Booster broadcast station. Applicants are subject to the third party disclosure requirement of 47 CFR Section 73.3580. Within 30 days of tendering of the application, applicants are required to publish a notice in a newspaper of general circulation when filing all applications for new or major changes in facilities; the notice to appear at least twice weekly for two consecutive weeks in a three week period. In addition, a copy of the notice must be maintained along with the application. The Commission uses FCC Form 346 to determine if an applicant is qualified, meets basic statutory and treaty requirements, and will not cause interference to other authorized broadcast services.

OMB Control Number: 3060-0757.
Title: FCC Auctions Customer Survey.
Form Number: N/A.
Type of Review: Extension of a currently approved collection.
Respondents: Business or other for-profit entities; and Individuals or households.
Number of Respondents: 2,000.
Estimate Time Per Response: 0.25 hours (15 mins.).
Frequency of Response: On occasion reporting requirements.
Total Annual Burden: 500.
Total Annual Costs: None.
Needs and Uses: Section 309(j) of the Communications Act requires that FCC, under appropriate circumstance, to test various methodologies for conducting competitive bidding. By seeking input from auction participants through the use of the FCC Auction Customer Survey, the Commission expects to gather information to evaluate the

operation of competitive bidding methodologies used to date, and to improve the competitive bidding methodologies used in future auctions.

OMB Control Number: 3060-0599.
Title: Implementation of Sections 3(n) and 332 of the Communications Act.
Form Number: N/A.
Type of Review: Revision of a currently approved collection.
Respondents: Business or other for-profit entities; and State, local, or tribal government.
Number of Respondents: 45.
Estimate Time Per Response: 1.66 hours.

Frequency of Response: On occasion reporting requirements.
Total Annual Burden: 75 hours.
Total Annual Costs: None.
Needs and Uses: This information collection will create regulatory symmetry among similar mobile services. This symmetrical regulatory structure will promote competition in the mobile services marketplace and will serve the interests of consumers while also benefiting the national economy.

Federal Communications Commission.

Magalie Roman Salas,
Secretary.

GENERAL ACCOUNTING OFFICE

Commercial Activities Panel

AGENCY: General Accounting Office.

ACTION: Notice and request for comments.

SUMMARY: Under section 832 of the National Defense Authorization Act for Fiscal Year 2001, the Comptroller General is required to convene a panel of experts to study the transfer of commercial activities currently performed by government employees to federal contractors, a procedure commonly known as "contracting out" or "outsourcing." To ensure a broad array of views on the panel, this notice seeks suggestions on the panel's composition. The panel must include representatives from the Department of Defense, private industry, federal labor
