

establish basic accounting requirements for the recording of financial information that must be available to the management, investors, and lenders of any business enterprise. This collection is primarily a record keeping requirement, although the Agency is requiring borrowers to establish an index of records. The hours of burden to maintain this index are directly related to the portions of the accounting system that are unique to the Agency. There are many important financial considerations for retention and preservation of accounting records. One of the most important considerations to RUS is that documentation be available so that the borrower's records may be audited for proper disbursements of funds.

Comments are invited on:

- (a) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (b) the accuracy of the agency's estimate of the burden of the collection of information including the validity of the methodology and assumptions used;
- (c) ways to enhance the quality, utility and clarity of the information to be collected; and
- (d) ways to minimize the burden of the collection of information on respondents, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Copies of this information collection can be obtained from Crystal Pemberton, Management Analyst, Rural Development Innovation Center—Regulations Management Division, at (202) 260-8621. Email: Crystal.Pemberton@usda.gov.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.
