PPWOCRADNO-PCU00RP14.R50000]

**Notice of Inventory Completion: The University of California Berkeley, Berkeley, CA**

**AGENCY:** National Park Service, Interior.

**ACTION:** Notice.

**SUMMARY:** The University of California Berkeley has completed an inventory of human remains, in consultation with the appropriate Indian Tribes or Native Hawaiian organizations, and has determined that there is a cultural affiliation between the human remains and present-day Indian Tribes or Native Hawaiian organizations. Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request to the University of California Berkeley. If no additional requestors come forward, transfer of control of the human remains to the lineal descendants, Indian Tribes, or Native Hawaiian organizations stated in this notice may proceed.

**DATES:** Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to the University of California Berkeley at the address in this notice by December 21, 2020.

**ADDRESSES:** Dr. Thomas Torma, NAGPRA Liaison, Office of the Vice Chancellor for Research, University of California Berkeley, 119 California Hall, Berkeley, CA 94720-1500, telephone (510) 672-5388, email [t.torma@berkeley.edu](mailto:t.torma@berkeley.edu).

**SUPPLEMENTARY INFORMATION:** Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains under the control of The University of California Berkeley, Berkeley, CA. The human remains were removed from Modoc and Siskiyou Counties, CA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003(d)(3). The determinations in this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native

American human remains. The National Park Service is not responsible for the determinations in this notice.

**Consultation**

A detailed assessment of the human remains objects was made by the University of California Berkeley professional staff in consultation with representatives of the Klamath Tribes and the Modoc Nation (previously listed as The Modoc Tribe of Oklahoma).

**History and Description of the Remains**

Sometime prior to 1901, human remains representing, at minimum, two individuals were removed by Ernest C. Bonner from an unknown location somewhere in Modoc County, CA. These human remains, which are in a fragmentary state, form part of the "older museums collection." No known individuals were identified. No associated funerary objects are present.

As the human remains are listed as coming from a Modoc Grave in Modoc County, CA, cultural affiliation is based on archeological and historical research.

In 1913, human remains representing, at minimum, one individual were removed from Goose Lake in Modoc County, CA. These human remains were collected by H. H. Stuart from a burial ground located near a small dry run into the lake that covered one acre. The human remains are in a fragmentary state. No known individual was identified. No associated funerary objects are present.

At an unknown date, human remains representing, at minimum, eight individuals were removed from Goose Lake in Modoc County, CA, by H. H. Stuart. Stuart collected the human remains from the bed of the lake. In 1931, the human remains were accessioned by the University. The human remains are in a fragmentary state. No known individuals were identified. No associated funerary objects are present.

At an unknown time, human remains representing, at minimum, one individual were removed from the shore of Goose Lake in Modoc County, CA. The human remains were collected by the father of Dolores Bunyard, who donated them to the University in 1945. The human remains are in a fragmentary state. No known individual was identified. No associated funerary objects are present.

Goose Lake lies within the traditional territory of the Klamath Tribes. Cultural affiliation is based on archeological and historical research.

In August 1954, human remains representing, at minimum, one individual were removed by Gordon L.

Grosscup and Robert J. Squier from a burial on the shore of Copic Island in Lower Klamath Lake, Siskiyou County, CA. The remains were accessioned by the University in the same year. The human remains are in a fragmentary state. No known individual was identified. No associated funerary objects are present.

Copic Island lies within the traditional territory of the Klamath Tribes. Cultural affiliation is based on archeological and historical research.

On August 4, 1925, human remains representing, at minimum, one individual were left outside of Room 5 of the anthropology building at the University of California Berkeley. A note accompanying the human remains stated "Klamath Falls Indian." No known individual was identified. No associated funerary objects are present.

The exact location where this individual was discovered is unknown. Cultural affiliation is based on the documentation accompanying the human remains.

**Determinations made by the University of California, Berkeley**

Officials of the University of California, Berkeley have determined that:

- Pursuant to 25 U.S.C. 3001(9), the human remains described in this notice represent the physical remains of 14 individuals of Native American ancestry.

- Pursuant to 25 U.S.C. 3001(2), there is a relationship of shared group identity that can be reasonably traced between the Native American human remains and the Klamath Tribes.

**Additional Requestors and Disposition**

Lineal descendants or representatives of any Indian Tribe or Native Hawaiian organization not identified in this notice that wish to request transfer of control of these human remains should submit a written request with information in support of the request to Dr. Thomas Torma, NAGPRA Liaison, Office of the Vice Chancellor for Research, University of California Berkeley, 119 California Hall, Berkeley, CA 94720-1500, telephone (510) 672-5388, email [t.torma@berkeley.edu](mailto:t.torma@berkeley.edu), by December 21, 2020. After that date, if no additional requestors have come forward, transfer of control of the human remains to the Klamath Tribes may proceed.

The University of California Berkeley is responsible for notifying the Klamath Tribes and the Modoc Nation (previously listed as The Modoc Tribe of Oklahoma) that this notice has been published.

Dated: November 2, 2020.

## DEPARTMENT OF THE INTERIOR

### Bureau of Ocean Energy Management

[OMB Control Number 1010–0082; Docket ID: BOEM–2017–0016]

#### Agency Information Collection Activities; Leasing of Minerals Other Than Oil, Gas, and Sulphur in the Outer Continental Shelf

**AGENCY:** Bureau of Ocean Energy Management, Interior.

**ACTION:** Notice of information collection; request for comment.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1995, the Bureau of Ocean Energy Management (BOEM) is proposing to renew an information collection request (ICR).

**DATES:** Interested persons are invited to submit comments on or before January 19, 2021.

**ADDRESSES:** Send your comments on this ICR by mail to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166; or by email to [anna.atkinson@boem.gov](mailto:anna.atkinson@boem.gov). Please reference OMB Control Number 1010–0082 in the subject line of your comments.

**FOR FURTHER INFORMATION CONTACT:** To request additional information about this ICR, contact Anna Atkinson by email, or by telephone at 703–787–1025.

**SUPPLEMENTARY INFORMATION:** In accordance with the Paperwork Reduction Act of 1995, BOEM provides the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps BOEM assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

BOEM is soliciting comments on the proposed ICR described below. BOEM is especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of BOEM; (2) what can BOEM do to ensure that this information is processed and used in a timely manner; (3) is the burden estimate accurate; (4)

how might BOEM enhance the quality, utility, and clarity of the information to be collected; and (5) how might BOEM minimize the burden of this collection on the respondents, including minimizing the burden through the use of information technology?

Comments submitted in response to this notice are a matter of public record. BOEM will include or summarize each comment in our request to the Office of Management and Budget (OMB) for approval of this ICR. You should be aware that your entire comment—including your address, phone number, email address, or other personally identifiable information—may be made publicly available at any time. In order for BOEM to withhold from disclosure your personally identifiable information, you must identify any information contained in the submittal of your comments that, if released, would constitute a clearly unwarranted invasion of your personal privacy. You must also briefly describe any possible harmful consequences of the disclosure of information, such as embarrassment, injury, or other harm. While you can ask us in your comment to withhold your personally identifiable information from public review, we cannot guarantee that we will be able to do so.

BOEM protects proprietary information in accordance with the Freedom of Information Act (5 U.S.C. 552) and the Department of the Interior's implementing regulations (43 CFR part 2).

**Title of Collection:** 30 CFR part 581, Leasing of Minerals Other than Oil, Gas, and Sulphur in the Outer Continental Shelf.

**Abstract:** The Outer Continental Shelf (OCS) Lands Act (Act), as amended (43 U.S.C. 1334 and 43 U.S.C. 1337(k)), authorizes the Secretary of the Interior (Secretary) to administer the provisions relating to the leasing of the OCS, and to prescribe such rules and regulations as may be necessary to carry out such provisions. Additionally, the Act authorizes the Secretary to implement regulations to grant to qualified persons, offering the highest cash bonuses on the basis of competitive bidding, leases of any mineral other than oil, gas, and sulphur. This applies to any area of the OCS not then under lease for such mineral upon royalty, rental, and other terms and conditions that the Secretary may prescribe at the time of the lease offer. The Secretary is to administer the leasing provisions of the Act and prescribe the rules and regulations necessary to carry out those provisions.

Regulations at 30 CFR part 581 implement these statutory requirements. There has been no leasing activity in the

OCS for minerals other than oil, gas, or sulphur under these regulations for many years, and so BOEM has not generally collected information under this Part of its regulations; however, because these are regulatory requirements, the potential exists for information to be collected. Therefore, we are renewing OMB approval for this information collection.

BOEM will use the information required by 30 CFR part 581 to determine if statutory requirements are met prior to the issuance of a lease. Specifically, BOEM will use the information to:

- Evaluate the area and minerals requested by the lessee to assess the viability of offering leases for sale;
- Request the state(s) to initiate the establishment of a joint task force to assess the proposed action;
- Ensure excessive overriding royalty interests are not created that would put economic constraints on all parties involved;
- Document that a leasehold or geographical subdivision has been surrendered by the record title holder; and
- Determine if activities on the proposed lease area(s) will have a significant impact on the environment.

**OMB Control Number:** 1010–0082.

**Form Number:** None.

**Type of Review:** Renewal of a currently approved collection.

**Respondents/Affected Public:** As there are no active respondents, we estimate the potential annual number of respondents to be one. Potential respondents are OCS lease requestors, state governments, and OCS lessees.

**Total Estimated Number of Annual Responses:** 10 responses.

**Total Estimated Number of Annual Burden Hours:** 984 hours.

**Respondent's Obligation:** Required to retain or obtain a benefit.

**Frequency of Collection:** On occasion.

**Total Estimated Annual Non-Hour Burden Cost:** \$29 non-hour cost burden.

The following table details the individual components and respective hour burden estimates of this ICR. We assumed that respondents perform certain requirements in the normal course of their activities. We consider these to be usual and customary and took that into account in estimating the burden. BOEM is decreasing the total non-hour cost burden from \$50 to \$29 to reflect the current filing application fee amount.
