

provided continuity of statistics since 1954 on R&D expenditures by source of funds and by science & engineering (S&E) field, with separate data requested on current fund expenditures for research equipment by S&E field. Statistics from the survey are published in NSF's annual publication series Academic Science and Engineering R&D Expenditures and are available electronically on the World Wide Web.

The survey will be submitted electronically primarily to the administrators at the Institutional Research Offices. To minimize burden and provide for security, each institution is provided with their institutional code and password. Files are pre-loaded with the institution's previous year's data, instructions, help menus, and a complete program for editing and trend checking. A link is provided to print a complete pdf survey form. Respondents are encouraged to submit their response electronically via the web. Approximately 95% responded via the web and only 15 used other means to submit their data (telephone, paper, email) to this voluntary survey in FY 2001. A total response rate of 95.6% was obtained. Burden estimates are as follows:

Years	Doctorate-granting burden hours	Masters-granting burden hours	Bachelors degree or below burden hours
FY 1999	29.3	13.0	7.4
FY 2000	28.7	12.0	10.4
FY 2001	30.2	11.9	9.0
