DEPARTMENT OF DEFENSE

Department of the Air Force

[25–0005809–AFRL/Ry]

Notice of Intent To Grant a Partially Exclusive Patent License

AGENCY: Department of the Air Force, Department of Defense.

ACTION: Notice of intent.

SUMMARY: Pursuant to the Bayh-Dole Act and implementing regulations, the Department of the Air Force hereby gives notice of its intent to grant a partially exclusive patent license to Parcell Company, a corporation of the state of Ohio having a place of business at 2335 Westbrooke Dr., Columbus, OH 43228.

DATES: Written objections must be filed no later than fifteen (15) calendar days after the date of publication of this Notice.

ADDRESSES: Submit written objections to Robert Barnes, Office of Research and Technology Applications (ORTA), 2241 Avionics Circle, Building 620, First floor, Wright-Patterson AFB, OH 45433–7304; *Phone:* (937) 713–8511; or *Email:* arfl.ry.orta@us.af.mil. Include Docket No. 25–0005809–AFRL/Ry in the subject line of the message.

FOR FURTHER INFORMATION CONTACT: Robert Barnes, Office of Research and Technology Applications (ORTA), 2950 Hobson Way, Bldg. 641, Rm. 101C, Wright-Patterson AFB, OH 45433–7765; *Phone:* (937) 713–8511; or *Email:* robert.barnes.36.ctr@us.af.mil.

SUPPLEMENTARY INFORMATION:

Abstract of Patent Application(s)

Protection and integration of proprietary data in an open system architecture, which includes at least one sub-system, and which must comply with an open standard interface mandated by the system owner. The open standard interface defines the set of messages or signals which may be exchanged by sub-system components. The sub-system provider computer is granted a bridge node to instantiate within their controlled sub-system boundary. The bridge node

communicates with the sub-system components via the interchangeable open standard interface and relays messages or signals to other sub-system bridge nodes through a shared common bus. The sub-system provider may protect their proprietary data in their standard interface implementation from the system owner and/or other sub-system providers in the overall system. This is achieved by removing the need for sub-system providers to share their open standard interface implementations with each other in order to integrate together into the overall system.

Intellectual Property

U.S. Patent No. 10,901,928 B2, issued on January 26, 2021, and entitled “*Data Access Control in an Open System Architecture*.”

The Department of the Air Force may grant the prospective license unless a timely objection is received that sufficiently shows the grant of the license would be inconsistent with the Bayh-Dole Act or implementing regulations. A competing application for a patent license agreement, completed in compliance with 37 CFR 404.8 and received by the Air Force within the period for timely objections, will be treated as an objection and may be considered as an alternative to the proposed license.

(Authority: 35 U.S.C. 209; 37 CFR 404.)

Tommy W. Lee,

Acting Air Force Federal Register Liaison Officer.

BILLING CODE 3911–44–P

DELAWARE RIVER BASIN COMMISSION

Notice of Public Hearing and Business Meeting; August 6, 2025 and September 10, 2025

Notice is hereby given that the Delaware River Basin Commission will hold a public hearing on Wednesday, August 6, 2025. A business meeting will be held the following month on Wednesday, September 10, 2025. Both the hearing and the business meeting are open to the public and both will be conducted virtually.

Public Hearing. The Commission will conduct the public hearing virtually on August 6, 2025, commencing at 1:30 p.m. Hearing items will include draft dockets for withdrawals, discharges, and other projects that could have a substantial effect on the basin’s water resources. A list of the projects

scheduled for hearing, including project descriptions, along with links to draft docket approvals will be posted on the Commission’s website, www.drbc.gov, in a long form of this notice at least ten days before the hearing date.

Written comments on matters scheduled for hearing on August 6, 2025 will be accepted through 5:00 p.m. on Monday, August 11, 2025.

The public is advised to check the Commission’s website periodically during the ten days prior to the hearing date, as items scheduled for hearing may be postponed if additional time is needed to complete the Commission’s review. Items also may be added up to ten days prior to the hearing date. In reviewing docket descriptions, the public is asked to be aware that the details of projects may change during the Commission’s review, which is ongoing.

Business Meeting. The business meeting on September 10, 2025 will begin at 10:30 a.m. and will include: adoption of the Minutes of the Commission’s June 11, 2025 business meeting; announcements of upcoming meetings and events; a report on hydrologic conditions; reports by the Executive Director and the Commission’s General Counsel; and consideration of any items for which a hearing has been completed or is not required. The agenda is expected to include consideration of the draft dockets for withdrawals, discharges, and other projects that were subjects of the public hearing on August 6, 2025.

After all scheduled business has been completed and as time allows, the business meeting will be followed by up to one hour of Open Public Comment, an opportunity to address the Commission off the record on any topic concerning management of the basin’s water resources outside the context of a duly noticed, on-the-record public hearing.

There will be no opportunity for additional public comment for the record at the September 10, 2025 business meeting on items for which a hearing was completed on August 6, 2025 or a previous date. Commission consideration on September 10, 2025 of items for which the public hearing is closed may result in approval of the item as proposed, approval with changes, denial, or deferral. When the Commissioners defer an action, they may announce an additional period for written comment on the item, with or without an additional hearing date, or they may take additional time to consider the input they have already received without requesting further public input. Any deferred items will be
