#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The NRC is issuing a revision to an existing guide in the NRC's "Regulatory Guide" series. This series was developed to describe and make available to the public information such as methods that are acceptable to the NRC staff for implementing specific parts of the agency's regulations, techniques that the staff uses in evaluating specific problems or postulated accidents, and data that the staff needs in its review of applications for permits and licenses.

Revision 3 of RG 4.7 was issued with a temporary identification as Draft Regulatory Guide, DG-4021. This revision of the guide incorporates references to Part 52 of Title 10 of the *Code of Federal Regulations* (10 CFR), and to relevant sections in the NRC's standard review plan (NUREG-0800)
