

Food and Drug Administration, and dairy industry trade associations, the Department prepared the Recommended Requirements to promote uniformity in State dairy laws and regulations for manufacturing grade milk. To accommodate changes that have occurred in the dairy industry, NASDA and various State officials have from time-to-time requested USDA to update the Recommended Requirements.

During its July 2003 annual meeting, the Dairy Division of NASDA passed resolutions requesting USDA to provide provisions for sheep milk, add follow-up procedures used when plant-commingled milk in storage tanks exceeds the maximum allowable bacterial estimate, and providing a definition for heat-treated cream. AMS reviewed these resolutions and developed a draft that identified the changes associated with this request. This draft was provided to State regulatory officials and dairy trade association representatives for informal discussion prior to publication in the **Federal Register**.

Subsequently, a notice of proposal to change the document, "Milk for Manufacturing Purposes and Its Production and Processing Requirements Recommended for Adoption by State Regulatory Agencies" was published in the **Federal Register** on Thursday, April 21, 2005 (70 FR 20730). The notice of proposal to change the document provided for a 60-day comment period that ended on June 20, 2005. No comments were received. A second notice published on August 18, 2005 (70 FR 48515) is hereby withdrawn. The August 18th notice duplicates the original notice and was published in error.

Accordingly, the changes proposed in the Milk for Manufacturing Purposes and Its Production and Processing: Recommended Requirements for Adoption by State Regulatory Agencies are incorporated in the revised Recommended Requirements. The Recommended Requirements (incorporating the changes herein adopted) are available either from the above address or by accessing the information on the Internet at the following address: <http://www.ams.usda.gov/dairy/manufmilk.pdf>.

DEPARTMENT OF COMMERCE

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Socio-economic Assessment of Marine Protected Areas Management Preferences.

Form Number(s): None.

OMB Approval Number: 0648–0494.

Type of Request: Regular submission.

Burden Hours: 234

Number of Respondents: 234.

Average Hours Per Response: 1 hour.

Needs and Uses: Several studies have shown that the haphazard placement of traps damages hard corals and gorgonians. In addition, to physically damaging hard corals and gorgonians traps target various overexploited reef fish species, which further threaten the health and stability of coral reef habitats. To protect coral reef habitats and ensure the sustainable use reef fish resources, the Caribbean Fishery Management Council (CFMC) is considering limiting the total number of traps in the fishery. The goal of the proposed survey is to gather socioeconomic information on the Caribbean (Puerto Rico, St. Thomas, St. John, and St. Croix) trap fishery to support the management and conservation efforts of the CFMC. The information collected will be used to satisfy regulatory objectives and analytical requirements, and to assist the CFMC in selecting policies that meet conservation and management goals and minimize to the extent possible any adverse economic impacts on fishery participants.

Affected Public: Business or other for-profit.

Frequency: One-time survey.

Respondent's Obligation: Voluntary.

OMB Desk Officer: David Rostker, (202) 395–3897.
