

(hereinafter ceramic tile). Ceramic tiles are articles containing a mixture of minerals including clay (generally hydrous silicates of alumina or magnesium) that are fired so the raw materials are fused to produce a finished good that is less than 3.2 cm in actual thickness. All ceramic tile is subject to the scope regardless of end use, surface area, and weight, regardless of whether the tile is glazed or unglazed, regardless of the water absorption coefficient by weight, regardless of the extent of vitrification, and regardless of whether or not the tile is on a backing. Subject merchandise includes ceramic tile with decorative features that may in spots exceed 3.2 cm in thickness and includes ceramic tile “slabs” or “panels” (tiles that are larger than 1 meter² (11 ft.²)).

Subject merchandise includes ceramic tile that undergoes minor processing in a third country prior to importation into the United States. Similarly, subject merchandise includes ceramic tile produced that undergoes minor processing after importation into the United States. Such minor processing includes, but is not limited to, one or more of the following: Beveling, cutting, trimming, staining, painting, polishing, finishing, additional firing, or any other processing that would otherwise not remove the merchandise from the scope of the investigation if performed in the country of manufacture of the in-scope product.

SUPPLEMENTARY INFORMATION: The Northwest Atlantic Fisheries Organization (NAFO) is a regional fisheries management organization that coordinates scientific study and cooperative management of the fisheries resources of the Northwest Atlantic Ocean, excluding salmon, tunas/marlins, whales and sedentary species

(e.g., shellfish). NAFO was established in 1979 by the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries. The United States acceded to the Convention in 1995, and has participated actively in NAFO since that time. In 2005, NAFO launched a reform effort to amend the Convention in order to bring the Organization more in line with the principles of modern fisheries management. As a result of these efforts, the Amendment to the Convention on Future Multilateral Cooperation in the Northwest Atlantic Fisheries entered into force in May 2017.

NAFO currently has 12 Contracting Parties, including Canada, Cuba, Denmark (in respect of Faroe Islands and Greenland), European Union, France (in respect of St. Pierre and Miquelon), Iceland, Japan, Norway, Republic of Korea, Russian Federation, Ukraine and the United States.

16 U.S.C. 5607 provides that the Secretaries of Commerce and State shall jointly establish a NAFO Consultative Committee (NCC) to advise the Secretaries on issues related to the NAFO Convention. Membership in the NCC is open to representatives from the New England and Mid-Atlantic Fishery Management Councils, the States represented on those Councils, the Atlantic States Marine Fisheries Commission, the fishing industry, the seafood processing industry, and others knowledgeable and experienced in the conservation and management of fisheries in the Northwest Atlantic Ocean. Members shall be appointed to a 2-year term and are eligible for reappointment. The NCC is exempted from the Federal Advisory Committee Act. NCC members are invited to attend all non-executive meetings of the U.S. Commissioners and at such meetings are given an opportunity to examine and to be heard on all proposed programs of study and investigation, reports, recommendations, and regulations of issues relating to the Act and proceedings of NAFO. In addition, NCC members may attend all public meetings of the NAFO Commission and any other meetings to which they are invited.

If you are interested in becoming a member of the NCC, please contact Elizabethann Mencher (see **FOR FURTHER INFORMATION CONTACT**) for additional details.

The NAFO Annual Meeting will be held September 23–27, 2019, in Bordeaux, France. Additional information about the meeting can be found at: <https://www.nafo.int/Meetings/AM>.
