

instructions. Once all pre-grant actions are complete, the FAA RO/ADO will offer the sponsor a grant for the announced project. This offer may be provided through postal mail or by electronic means, and it includes an offer letter and a grant agreement. Once the sponsor accepts the offer and has fully executed the grant agreement, that agreement becomes the legally binding grant award document. Awards made under this program are subject to conditions and assurances in the grant agreement. In FY 2022, the FAA will announce awards several times throughout the fiscal year, but no later than September 30, 2022. These announcements can include entitlement and discretionary awards.

2. Administrative Requirements

i. Pre-Award Authority

Under 49 U.S.C. 47110(b)(2), all project costs must be incurred after the grant execution date unless specifically permitted under the AIP statutes. Table 3–60 of the AIP Handbook lists the rules regarding when project costs can be incurred in relation to the grant execution date, the type of funding, and the type of project. Certain airport development costs incurred before execution of the grant agreement are allowable, but only if certain conditions under 49 U.S.C. 47110(b)(2)(D) and Table 3–60 of the AIP Handbook are met. Specifically, all allowable costs using passenger, cargo, and nonprimary entitlement (formula) funding after 9/30/1996 may be reimbursed regardless of whether they were incurred before the grant was executed as long as all other applicable AIP requirements have been met. In addition, allowable costs using any or all the following discretionary, state apportionment (including insular) and Alaska supplemental funding project costs must have been incurred after the grant execution date. The only exceptions are based on statute and are relating to the Part 150 Noise Mitigation program, project formulation for development and planning projects, land acquisition, letters of intent, and design-build projects, Military Airport Program and climate-related conditions.

ii. Planning

The FAA encourages applicants to review and understand the long-term planning process in the lifecycle of an AIP grant. The planning process for a particular project begins several years before a fiscal year in which a grant is awarded. FAA Order 5090.5 establishes guidelines for the two Federal plans essential to airport development: The

National Plan of Integrated Airport Systems (NPIAS) and the Airports Capital Improvement Plan (ACIP) is available at https://www.faa.gov/airports/planning_capacity/npias_acip_order/.

iii. Grant Requirements

All grant recipients are subject to the grant requirements of the AIP, which includes requirements of 49 U.S.C. Chapter 471. Grant recipients are subject to requirements in the FAA's Agreement for AIP for financial assistance awards, the annual Certifications and Assurances required of applicants, and any additional applicable statutory or regulatory requirements, including nondiscrimination requirements, 2 CFR part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards. Grant requirements include, but are not limited to, approved project on an airport layout plan, compliance with federal civil rights laws, Buy American requirements under 49 U.S.C. 50101, Build America, Buy America Act requirements under Public Law 117–58, Transportation Disadvantaged Business Enterprise (DBE) program regulations for Airports (49 CFR part 23 and 49 CFR part 26), and Davis-Bacon Act, as amended (40 U.S.C. 276a–276a–5).

iv. Standard Assurances

Applicants must assure that it will comply with all applicable Federal statutes, regulations, executive orders, directives, FAA circulars, and other Federal administrative requirements in carrying out any project supported by the AIP grant. Applicants must acknowledge that they are under a continuing obligation to comply with the terms and conditions of the grant agreement issued for its project with the FAA. Applicants understand that Federal laws, regulations, policies, and administrative practices might be modified from time to time and may affect the implementation of the project. Applicants must agree that the most recent Federal requirements will apply to the project unless the FAA issues a written determination otherwise.

Applicants must submit the Certifications and Assurances before receiving a grant, including sponsor grant assurances and 2 CFR part 200. The Airport Sponsor Assurances are available on the FAA website at: https://www.faa.gov/airports/aip/grant_assurances/.

3. Reporting

The grant recipient is subject to financial reporting per 2 CFR 200.328 and performance reporting per 2 CFR

200.329. Under the AIP, the grant recipient is required to comply with all Federal financial reporting requirements and payment requirements, including the submittal of timely and accurate reports. Financial and performance reporting requirements are available in the FAA October 2020 Financial Reporting Policy, which is available at https://www.faa.gov/airports/aip/grant_payments/media/aip-grant-payment-policy.pdf.

The grant recipient must comply with annual audit reporting requirements. The grant recipient and sub-recipients, if applicable, must comply with 2 CFR part 200 subpart F Audit reporting requirements. The grant recipient must comply with any reporting requirements outlined in 2 CFR part 180, OMB Guidelines to Agencies on Government-wide Debarment and Suspension.

Petition for Exemption

Docket No.: FAA–2022–0070.

Petitioner: Breeze Aviation Group, Inc.

Sections of 14 CFR Affected: §§ 121.407(a)(1)(ii), and 121.439(a) and (b).

Description of Relief Sought: Breeze Aviation Group, Inc. (Breeze) seeks an exemption from Title 14 Code of Federal Regulations §§ 121.407(a)(1)(ii), and 121.439(a) and (b) that would allow

Breeze to operate its fleet of Embraer ERJ 190 (ERJ–190) aircraft while using an Embraer ERJ 170 (ERJ–170) Full Flight Simulator (FFS) for training, checking, and currency. This relief will allow Breeze’s use of an ERJ–170 type certificated FFS to train and check pilots currently operating the ERJ–190 aircraft.
