

D. What should I consider as I prepare my comments for EPA?

1. *Submitting CBI.* Do not submit CBI to EPA through <https://www.regulations.gov> or email. If you wish to include CBI in your comment, please follow the applicable instructions at <https://www.epa.gov/dockets/commenting-epa-dockets#rules> and clearly mark the information that you claim to be CBI. In addition to one complete version of the comment that includes CBI, a copy of the comment without CBI must be submitted for inclusion in the public docket. Information marked as CBI will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When preparing and submitting your comments, see the commenting tips at <https://www.epa.gov/dockets/commenting-epa-dockets>.

II. Applications To Register New Uses

This unit provides the following information about the applications that have been received and are currently being evaluated by EPA: The EPA File Symbol or Registration number(s); EPA docket ID number for the application; Name and address of the applicant; Name of the active ingredient, product type and proposed uses; and the division to contact for that application. Additional information about the application may also be available in the related docket identified for the application.

- *EPA Registration Number:* 89633–5. *Docket ID number:* EPA–HQ–OPP–2024–0412.

Applicant: Moghu Research Center, Ltd. c/o to Xcel, LLC, 7140 Heritage Village Plaza, Gainesville, VA 20155. *Active ingredient:* Methiozolin. *Product type:* Herbicide. *Proposed uses:* Residential lawns, Sports and recreational turf fields, and Sod farms. *Contact:* RD.

- *EPA Registration Number:* 101563–5. *Docket ID number:* EPA–HQ–OPP–2025–0081.

Applicant: ENVU Environmental Science U.S., LLC. *Active ingredient:* Flupyradifurone. *Product type:* Insecticide. *Proposed use:* Poultry houses. *Contact:* RD.

- *EPA File Symbol:* 264–REGU. *Docket ID number:* EPA–HQ–OPP–2024–0348.

Applicant: Bayer CropScience LP., 800 N. Lindbergh Blvd., St. Louis, MO 63167. *Active ingredient:* 2,4–D Trolamine Salt. *Product type:* Herbicide. *Proposed use:* Preplant, preemergence and postemergence use on Genetically engineered (GE) soybeans; preplant and

preemergence use on non-GE corn; preplant use on non-GE cotton; preplant use on non-GE soybeans; use on fallow to be planted to corn, cotton, and soybean. *Contact:* RD.

Authority: 7 U.S.C. 136 *et seq.*

Dated: April 17, 2025.

Kimberly Smith,

Acting Director, Information Technology and Resources Management Division, Office of Program Support.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

[FRL–12736–01–OA]

Request for Nominations of Candidates to the EPA Science Advisory Board

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations of scientific experts from a wide range of disciplines to be considered for appointment to the EPA Science Advisory Board (SAB) described in this document. Appointments will be announced by the Administrator.

DATES: Nominations should be submitted no later than June 2, 2025.

FOR FURTHER INFORMATION CONTACT: For information about the chartered SAB membership, appointment process, and schedule, please contact Dr. Shaunta Hill-Hammond, DFO, by telephone at (202) 564–3343 or by email at hill-hammond.shaunta@epa.gov or Dr. Suhair Shallal, DFO, by telephone at (202) 564–2057 or by email at shallal.suhair@epa.gov.

SUPPLEMENTARY INFORMATION:

Background: The SAB is a chartered Federal Advisory Committee, established in 1978 under the authority of the Environmental Research, Development and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical peer review, consultation, advice, and recommendations to the EPA Administrator on the scientific bases for EPA's actions and programs. Members of the SAB constitute distinguished bodies of non-EPA scientists, engineers, economists, and behavioral scientists who are nationally and internationally recognized experts in their respective fields. Members are appointed by the EPA Administrator for a two or three-

year term and serve as Special Government Employees who provide independent expert advice to the agency. All the work of SAB committees and ad-hoc panels is conducted under the auspices of the chartered SAB. Additional information about the SAB is available at <https://sab.epa.gov>.

Expertise Sought for the SAB: The chartered SAB provides scientific advice to the EPA Administrator on a variety of EPA science and research topics. All the work of SAB standing committees and ad-hoc panels is conducted under the auspices of the chartered SAB. The chartered SAB reviews all SAB standing committee and ad-hoc panel draft reports and determines whether each exhibits the high quality and meets the SAB's criteria to deliver to the EPA Administrator. The SAB Staff Office invites nominations of individuals to serve on the chartered SAB with expertise or extensive experience in the following scientific disciplines and topics as they relate to human health and the environment: *air quality; agricultural sciences and economics; analytical chemistry; atmospheric sciences; benefit-cost analysis; biostatistics; citizen science; community environmental health; dose-response assessment; drinking water; drinking water engineering; ecological sciences; ecological risk assessment; ecosystem services; economics; energy and the environment; engineering; epidemiology; exposure assessment; forestry; geochemistry; health sciences; human health risk assessment; hydrology; hydrogeology; medicine; microbiology; modeling; pediatrics; chemical risk assessment, public health; physiologically based pharmacokinetic (PBPK) modeling; risk assessment; social, behavioral and decision sciences; statistics; sustainability; radiological risk assessment; toxicology; uncertainty analysis; water quality; water quantity and reuse; and waste management.*

Members selected to the chartered SAB may also participate on standing committees of the SAB. Board members with demonstrated scientific credentials, disciplinary expertise in relevant fields, and experience may be asked to participate on the following SAB Standing Committees:

(1) The Agricultural Science Committee, which provides advice to the chartered SAB on matters that have been determined to have a significant direct impact on farming and agriculture-related industries.

(2) The Chemical Assessment Advisory Committee, which provides advice to the chartered SAB regarding

selected toxicological reviews of environmental chemicals.

(3) The Drinking Water Committee, which provides advice to the chartered SAB on the scientific and technical aspects of EPA's national drinking water program.

(4) The Economic Analysis Committee, which provides advice to the chartered SAB on the economic analysis of EPA programs.

(5) The Radiation Advisory Committee, which provides advice to the chartered SAB on radiation protection, radiation science, and radiation risk assessment. *Selection Criteria for the SAB and the SAB Committees include:*

- Demonstrated scientific credentials and disciplinary expertise in relevant fields;
- Willingness to commit time to the Board and/or committees and demonstrated ability to work constructively and effectively;
- Background and experiences that would contribute to a wide range of perspectives on the Board and/or committees, e.g., geographical, social, cultural, educational backgrounds, professional affiliations; and other considerations; and
- The collective breadth and depth of scientific expertise of the entire Board and committees holistically.

As the SAB and its standing committees undertake specific advisory activities, the SAB Staff Office will consider two additional criteria for each new activity: absence of financial conflicts of interest and absence of an appearance of a loss of impartiality.

How To Submit Nominations: Any interested person or organization may nominate qualified persons to be considered for appointment to these advisory committees. Individuals may self-nominate. Nominations should be submitted in electronic format (preferred) using the online nomination form on the SAB home page at <https://sab.epa.gov>. To be considered, all nominations should include the information requested below.

Nominators are asked to identify the specific committee for which nominees are to be considered. The following information should be provided on the nomination form: contact information for the person making the nomination; contact information for the nominee; the disciplinary and specific areas of expertise of the nominee; the nominee's *curriculum vitae*; and a biographical sketch (if available) of the nominee indicating current position, educational background; research activities; sources of research funding for the last two

years; and recent service on other national advisory committees or national professional organizations.

To help the agency evaluate the effectiveness of its outreach efforts, please indicate how you learned of this nomination opportunity. Persons having questions about the nomination process, or the public comment process described below, or those who are unable to submit nominations through the SAB website, should contact a DFO as identified above. The SAB Staff Office will acknowledge receipt of nominations and will invite the nominee to provide any additional information that the nominee feels would be useful in considering the nomination, such as interest to participate as a member of a committee; and address any questions the nominee has regarding membership. The names and biosketches of qualified nominees identified by respondents to this **Federal Register** notice, and any additional experts identified by the SAB Staff Office, will be posted in a List of Candidates on the SAB website at <https://sab.epa.gov>. Public comments on each List of Candidates will be accepted for 21 days from the date the list is posted. The public will be requested to provide relevant information or other documentation on nominees that the SAB Staff Office should consider in evaluating candidates.

Candidates invited to serve will be asked to submit the "Confidential Financial Disclosure Form for Special Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency" (EPA Form 3110-48). This confidential form allows EPA to determine whether there is a statutory conflict between that person's public responsibilities as a Special Government Employee and private interests and activities, or the appearance of a loss of impartiality, as defined by Federal regulation. The form may be viewed and downloaded through the "Ethics Requirements for Advisors" link on the SAB home page at <https://sab.epa.gov>. This form should not be submitted as part of a nomination.

V. Khanna Johnston,

Deputy Director, Science Advisory Board Staff Office.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-12738-01-OA]

Request for Nominations to the EPA Clean Air Scientific Advisory Committee (CASAC)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations of scientific experts to be considered for appointment to the Clean Air Scientific Advisory Committee (CASAC). Appointments will be made by the Administrator.

DATES: Nominations should be submitted in time to arrive no later than June 2, 2025.

FOR FURTHER INFORMATION CONTACT: For further information about the CASAC membership, appointment process, and schedule, please contact Mr. Aaron Yeow, DFO, by telephone at 202-564-2050, or by email at yeow.aaron@epa.gov.

SUPPLEMENTARY INFORMATION:

Background: The CASAC is a chartered Federal Advisory Committee, established pursuant to the Clean Air Act (CAA) Amendments of 1977, codified at 42 U.S.C. 7409(d)(2), to review air quality criteria and National Ambient Air Quality Standards (NAAQS) and recommend to the EPA Administrator any new NAAQS and revisions of existing criteria and standards as may be appropriate. The CASAC shall also: advise the EPA Administrator of areas in which additional knowledge is required to appraise the adequacy and basis of existing, new, or revised NAAQS; describe the research efforts necessary to provide the required information; advise the EPA Administrator on the relative contribution to air pollution concentrations of natural as well as anthropogenic activity; and advise the EPA Administrator of any adverse public health, welfare, social, economic, or energy effects which may result from various strategies for attainment and maintenance of such NAAQS. Members of the CASAC constitute a distinguished body of non-EPA scientists and engineers who are nationally and internationally recognized experts in their respective fields. Members are appointed by the EPA Administrator and serve for a two to three-year term as Special Government Employees who provide independent expert advice to the agency. Additional information is available at <https://casac.epa.gov>.
