#### SUPPLEMENTARY INFORMATION:

##### Background

On February 4, 2004 and September 13, 2004, CBP published general notices in the **Federal Register** (69 FR 55167 and 69 FR 5360) announcing a test, in conjunction with the Federal Motor Carrier Safety Administration (FMCSA), allowing participating truck carriers to transmit electronic manifest data in ACE, including advance cargo information as required by section 343(a) of the Trade Act of 2002, as amended by the Maritime Transportation Security Act of 2002. The advance cargo information requirements are detailed in the final rule published in the **Federal Register** at 68 FR 68140 on December 5, 2003. Truck carriers participating in the test opened up Truck Carrier [Portal] Accounts which provided them with the ability to electronically transmit truck manifest data and obtain release of their cargo, crew, conveyances, and equipment via the ACE Portal or electronic data interchange (EDI) messaging.

In the September 13, 2004, notice, CBP stated that, in order to be eligible for participation in this test, a carrier must have:

1. Submitted an application (*i.e.*, statement of intent to establish an ACE [Portal] Account and to participate in the testing of electronic truck manifest functionality) as set forth in the February 4, 2004, notice;
