

measures necessary to implement the moratorium, such as prohibition on possession of American shad in South Carolina waters and a prohibition on landing American shad in South Carolina. Delaying the effective date of the moratorium until January 5, 2001, will allow South Carolina time to complete its legislative process, and have the Commission review the new regulations for compliance. This delay will not significantly diminish American shad conservation efforts because the fishery will not begin again until January 2001.

If the moratorium goes into effect, NMFS will terminate it as soon as possible upon determination that the State has taken appropriate remedial actions to bring it into compliance with the ISFMP.

Meeting Dates and Agendas

Wednesday, September 6, 2000, 9:30 a.m.—Capacity Committee Meeting.

Location: Holiday Inn, Mansfield, 31 Hampshire Street, Mansfield, MA 02048; telephone: (508) 339-2200; fax: (508) 339-1040.

The Capacity Committee will review analyses of proposals to allow the more flexible transfer of fishing permits among fisheries and effort allocations in the multispecies. One proposal would allow multispecies permit holders to acquire additional days-at-sea (DAS) from other permit holders with different rates of reduction of DAS on transfer for active and inactive DAS. Two other proposals would allow the transfer of fishing permits among different fisheries but not allow vessels in the monkfish, scallop and multispecies to acquire additional DAS. A fourth proposal would reduce unused DAS by a small percentage each year unless the DAS were put under a freeze until groundfish stocks were rebuilt.

Monday, September 11, 2000 at 9:30 a.m. and Tuesday, September 12, 2000 at 9:00 a.m.—Joint Meeting of the Groundfish Committee and Advisors.

Location: King's Grant Inn, Route 128 at Trask Lane, Danvers, MA 01923; telephone: (978) 774-6800; fax: (978) 774-6502.

The Committee and Advisors will conduct a joint meeting to continue development of management options for Amendment 13 to the Northeast Multispecies Fishery Management Plan. Since April, the Committee has been identifying a wide range of possible management measures for this Amendment. The Committee and Advisors will now refine those measures into coherent management programs that will be developed into a draft supplemental environmental impact statement and public hearing document. The Committee and Advisors are focusing on three broad approaches to groundfish management: revisions to the measures currently in place, an area-based management system, and a sector allocation system. All three approaches will be discussed at this meeting and choices will be made on the specifics of each proposal that will be recommended to the Council later this year. In addition, the Committee and Advisors will review updated assessment information on groundfish stocks, if available, and may develop preliminary recommendations on the rebuilding schedules that will be used in this Amendment. The Committee and Advisors will also consider information from the Council's Groundfish Overfishing Definitions Review Panel
