Privacy Impact Assessment: No impact(s).

Needs and Uses: Section 90.621(b)(4) allows stations to be licensed at distances less than those prescribed in the Short-Spacing Separation Table where applicants “secure a waiver.” Applicants seeking a waiver in these circumstances are still required to submit with their application an interference analysis, based upon any of the generally-accepted terrain-based propagation models, demonstrating that co-channel stations would receive the same or greater interference protection than provided in the Short-Spacing Separation Table.

Section 90.621(b)(5) permits stations to be located closer than the required separation, so long as the applicant provides letters of concurrence indicating that the applicant and each co-channel licensee within the specified separation agree to accept any interference resulting from the reduced separation between systems. Applicants are still required to file such concurrence letters with the Commission. Additionally, the Commission did not eliminate filings required by provisions such as international agreements, its environmental (National Environmental Protection Act (NEPA)) rules, its antenna structure registration rules, or

quiet zone notification/filing procedures.

Section 90.693 requires that 800 MHz incumbent Specialized Mobile Radio (SMR) service licensees “notify the Commission within 30 days of any changes in technical parameters or additional stations constructed that fall within the short-spacing criteria.” It has been standard practice for incumbents to notify the Commission of all changes and additional stations constructed in cases where such stations are in fact located less than the required 70 mile distance separation, and are therefore technically “short-spaced,” but are in fact fully compliant with the parameters of the Commission’s Short-Spacing Separation Table.

The Commission uses this information to determine whether to grant licenses to applicants making “minor modifications” to their systems which do not satisfy mileage separation requirements pursuant to the Short-Spacing Separation Table.

FEDERAL MARITIME COMMISSION

Privacy Act of 1974; System of Records

AGENCY: Federal Maritime Commission.

ACTION: Rescindment of a system of records notice.

SUMMARY: FMC–40 The Service Contract Filing System (SERVCON) is the Federal Maritime Commission’s (Commission’s) automated filing system for service contracts. Shippers or vessel-operating common carriers (VOCCs) are required to file service contracts with the Commission on form FMC–83. This system is not being discontinued, however, SERVCON does not meet the requirements of a Privacy Act System of Records as it does not maintain “records” as defined under the Privacy Act (PA), that are “about” an individual. **DATES:** This rescindment is effective upon publication.

ADDRESSES: Submit written comments to Rachel E. Dickon, Secretary, Federal Maritime Commission, 800 N Capitol Street NW, Washington, DC 20573–0001; or, email comments to: Secretary@fmc.gov (email comments as an attachment in MS Word or PDF). Include in the Subject Line: Comments on Systems of Records Notice FMC–40.

FOR FURTHER INFORMATION CONTACT:

Office of Service Contracts & Tariffs (SCT), Gary Kardian, 800 N Capitol Street NW, Suite 940, Washington, DC 20573–0001, (202) 523–5796, tradeanalysis@fmc.gov.

SUPPLEMENTARY INFORMATION: The FMC SERVCON system does not meet the requirements of a Privacy Act System of Records because it does not maintain “records” as defined under the Privacy Act (PA), that are “about” an individual. The PA states “no agency shall disclose any record which is contained in a system of records . . .” 5 U.S.C. 552a(b). The term “record” as used in the PA, means “any item, collection, or grouping of information *about* an individual that is maintained by an agency, including, but not limited to, his education, financial transactions, medical history, and criminal or employment history and that contains his name, or the identifying number, symbol, or other identifying particular assigned to the individual, such as a finger or voice print or a photograph;” 5 U.S.C. 552a(4). (Emphasis added).

The purpose of the FMC SERVCON system is to “record, review, and manage contractual arrangements by organizations performing services as registered VOCCs and non-vessel-operating common carriers in order to ensure legal operating requirements are met.” FMC SERVCON Privacy Impact Statement (PIA), *available at:* <https://www.fmc.gov/wp-content/uploads/2018/10/SERVCONPIA-2013.pdf>. There are no reports in SERVCON produced on individuals.

SERVCON, however does have information protected by statute and possibly business confidential information. All SERVCON system protections will continue to be maintained in accordance with the security and privacy protections in place for the FMC’s General Support System and the FMC SQL Database, within which SERVCON is operated.
