OMB Number: 0551-0015.

Expiration Date of Approval: March 31, 2008.

Type of Request: Extension of a currently approved information collection.

Abstract: The primary objective of the Sugar Import Licensing Program is to permit entry of raw cane sugar unrestricted by the quantitative limit established by the sugar tariff-rate quota for re-export in refined form or in a sugar containing product or for the production of certain polyhydric alcohols. These programs are in use by as many as 250 licensees currently eligible to participate. Under 7 CFR part 1530, licensees are required to submit the following: (1) "Application for a license" information required for participation as set forth in section 1530.104 (2) "Regular reporting" of import, export, transfer, or use for charges and credits to licenses under section 1530.109; and (3) "miscellaneous submission" of bonds or letters of credit under section 1530.107, appeals to determinations by the licensing authority under section 1530.112, or requests to the licensing authority for waivers under section 1530.113. In addition, each participant must maintain records on all program reports as set forth in section 1530.110. The information collected is used by the licensing authority to manage, plan, evaluate, and account for program activities. The reports and records are required to ensure the proper operations of these programs.

Estimate of Burden: (1) "Application for a license" would require 20 hours per response; (2) "regular reporting" would require between 10 and 15 minutes per transaction with the number of transactions varying per respondent; and (3) "miscellaneous submission" would require between 1 or 2 hours per bond or letter of credit, 2 to 10 hours per waiver request, and 10 to 100 hours per appeal.

Respondents: Sugar refiners, manufacturers of sugar containing products and producers of polyhydric alcohol.

Estimated Number of Respondents: 250.

Estimated Number of Responses per Respondent: New/Renew License: 1; Regular reporting: 75 transactions, average; Miscellaneous: Bonds/letters of credit: 1; Waiver requests: 1; Appeals: 1.

Estimated Total Burden Hours on Respondents: 2,075 hours.

Forest Service

Notice of Proposed New Fee Sites; Federal Lands Recreation Enhancement Act (Title VIII, Public Law 108-447)

AGENCY: Boise National Forest, USDA Forest Service.

ACTION: Notice of proposed new fee sites.

SUMMARY: The Boise National Forest is planning to charge fees at 22 recreation sites. Fees are assessed based on the level of amenities and services provided, cost of operation and maintenance, market assessment, and public comment. The fees listed are currently proposed and will be determined upon further analysis and public comment. Funds from fees would be used for the continued operation and maintenance of these recreation sites.

Swanholm and Rice Peak Lookouts, along with cabins at the Landmark Ranger Station and Johnson Creek Guard Station will be available for overnight rental. A fee study, financial analysis, and public involvement efforts were completed. As a result, cabin

rental fees would range between \$30 and \$50 per night. Lookout, ranger, and guard station rentals offer a unique experience and are a widely popular offering on National Forests. The Landmark Ranger Station is eligible for listing on the National Register of Historic Places and is being restored to its original purpose as a working Forest Service administrative site, and to adapt the compound for public use and enjoyment. Fees would continue to help protect and maintain all these administrative structures and their historic integrity. The cabin rentals would be available once a final decision is made and they are listed with the National Recreation Reservation Service which would be in May of 2008 at the earliest.

New \$5 day use fees are also proposed for the Arrowrock and Campbell Creek boating access sites and the Granite Creek picnic site. These fees will help address the deferred maintenance needs, such as substandard boat docks at both of the boating sites as well as general operation and maintenance needs at all three sites. The Granite Creek picnic site also serves as a trailhead for an important interpretive trail in the summer and groomed snowmobile trail access in the winter. Amenities include covered picnic shelters, a toilet, and interpretive exhibits.

Fees are proposed at 15 campgrounds including Badger Creek, Castle Creek, Cottonwood, Evans Creek, Little Roaring River Lake, Troutdale, Bald Mountain, Neimeyer, Powerplant, Queens River, Riverside, Golden Gate, Ice Hole, Penny Springs, and Yellow Pine campgrounds. Many of these sites have been improved with new toilets and picnic tables over the last 8 to 10 years and additional income is needed for their continued operation and maintenance. A fee study, financial analysis, and public involvement efforts were completed in the spring and summer of 2007 in an effort to determine campground fees across the Boise National Forest, including both existing fee campgrounds as well as those proposed for new fees. Fees at campgrounds are proposed to be \$15 at sites that provide both drinking and water and trash removal and \$12 at sites that do not provide both of these amenities. A \$5 day use fee is also proposed at some sites.

DATES: New fees would begin in May 2007 and contingent upon completion of certain improvements at a few sites.

SUPPLEMENTARY INFORMATION: The Federal Recreation Lands Enhancement Act (Title VII, Pub. L. 108-447) directed the Secretary of Agriculture to publish a 6-month advance notice in the **Federal Register** whenever new recreation fee areas are established.

Once public involvement is complete, these new fees will be reviewed by a Recreation Resource Advisory Committee prior to a final decision and implementation.

ACTION: Initial announcement—notice of availability of funds.

SUMMARY: The National Telecommunications and Information Administration (NTIA) has established a program through which each eligible low-power television broadcast station, Class A television station, television translator station, or television booster station, may receive compensation toward the cost of the purchase of a digital-to-analog conversion device that enables it to convert the incoming digital signal of its corresponding full-power television station to analog format for transmission on the low-power television station's analog channel.
