Abstract: The New Source Performance Standards (NSPS) for Sulfuric Acid Plants were proposed on August 17, 1971, and promulgated on December 23, 1971. These standards apply to any sulfuric acid facility commencing construction, modification, or reconstruction after the date of proposal. The control of sulfur dioxide (SO₂) and acid mist requires not only the installation of properly designed equipment, but also the proper operation and maintenance of that equipment. Sulfur dioxide and acid mist emissions from sulfuric acid plants result from the burning of sulfur or sulfur-bearing feed-stock to form SO₂, catalytic oxidation of SO₂ to sulfur trioxide, and absorption of SO₂ in a strong acid stream. These standards rely on the capture of SO₂ and acid mist by venting to a control device.

Owners or operators of sulfuric acid plants are required to make the following one-time-only reports, notification of the date of construction or reconstruction, notification of actual startup dates, notification of any physical or operational change to an existing facility, and notification of demonstration of the continuous emissions monitoring system (CEMS). The owners and operators should notify the Administrator of the date of the initial performance test and the results of the test. After the initial recordkeeping and reporting requirements, semiannual reports are required if there has been an exceedance of control device operating parameters. Respondents are also required to maintain records of occurrence and duration of any startup, shutdown, or malfunction, or any period during which the monitoring system is inoperative.

Notifications are to inform the Agency or delegated authority when a source becomes subject to the standard. The reviewing authority may then inspect the source to ensure that the pollution control devices are properly installed and operating and that the standards are being met. Performance test reports are required as these are the Agency's records of a source's initial capability to comply with the emission standards and to serve as a record of the operating conditions under which compliance are to be achieved. The information generated by monitoring, recordkeeping, and reporting requirements described in this ICR are used by the Agency to ensure that facilities that are affected by the standard continue to operate the control equipment and achieve

continuous compliance with the regulation.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance with 40 CFR part 60, subpart H, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 81 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Sulfuric acid plants.

Estimated Number of Respondents: 53.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 8,594.

Estimated Total Annual Cost: \$1,061,150, which includes \$822,650 in labor costs, no capital/startup costs, and \$238,500 in operation and maintenance (O&M) costs.

Changes in the Estimates: The adjustment decrease in burden from the most recently approved ICR is due to a more accurate estimate of existing and anticipated new sources. After consulting with the Office of Air Quality Planning and Standards (OAQPS) and a number of trade associations, our data

indicates that there are approximately 53 sources subject to the rule, as compared with the active ICR that shows 103 sources. There are no new facilities expected to be constructed over the next three years of this ICR. The decline in the number of sources is partially due to: (1) Plant closures, as the cost to retrofit aging facilities increased due to the down turn in the economy; (2) corporate mergers; and (3) foreign competition. Therefore, there is a net decrease in the burden to industry.

Because there are no new sources with reporting requirements, no capital/startup costs are incurred. The only cost that is incurred is for the O&M of the monitoring equipment.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NSPS for Bulk Gasoline Terminals (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

DATES: Additional comments may be submitted on or before January 6, 2012.

ADDRESSES: Submit your comments, referencing docket ID number EPA-HQ-OECA-2011-0223, to: (1) EPA online using <http://www.regulations.gov> (our preferred method), or by email to docket.oeca@epa.gov, or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 2822IT, 1200 Pennsylvania Avenue NW., Washington, DC 20460; and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA,

725 17th Street NW., Washington, DC 20503.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 9, 2011 (76 FR 26900), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to both EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2011-0223, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to either submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov>, as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. Title: NSPS for Bulk Gasoline Terminals (Renewal).

ICR Numbers: EPA ICR Number 0664.10, OMB Control Number 2060-0006.

ICR Status: This ICR is scheduled to expire on December 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The New Source Performance Standards (NSPS) for Bulk Gasoline Terminals were proposed on December 17, 1980, promulgated on August 18, 1983, and amended on December 22, 1983, February 12, 1999, and December 19, 2003. These standards apply to the total of all loading racks at bulk gasoline terminals that deliver liquid product into gasoline tank trucks and for which construction, modification, or reconstruction commenced after the date of proposal. A bulk gasoline terminal is any gasoline facility that receives gasoline by pipeline, ship, or barge, and has a gasoline throughput greater than 75,700 liters per day. The affected facility includes the loading arms, pumps, meters, shutoff valves, relief valves, and other piping and valves necessary to fill delivery tank trucks. Volatile organic chemicals (VOCs) are the pollutants regulated under this subpart.

Owners or operators of the affected facilities must make the following one-time-only reports: notification of the date of any: (1) Construction or reconstruction; (2) anticipated and actual dates of startup; (3) physical or operational change to an existing facility that may increase the regulated pollutant emission rate; and (4) initial performance test and the results of this initial performance test. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. In general, these notifications, reports, and records are required of all sources subject to NSPS.

Monitoring requirements specific to bulk gasoline terminals are listed in 40 CFR 60.505. These requirements consist of identifying and documenting vapor tightness for each gasoline tank truck that is loaded at the affected facility, and notifying the owner or operator of each tank truck that is not vapor-tight. The owner or operator must also perform a monthly visual inspection for liquid or vapor leaks, and maintain records of these inspections at the facility.

All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office. This information is being collected to assure compliance

with 40 CFR part 60, subpart XX, as authorized in section 112 and 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined to be private.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB Control Number. The OMB Control Numbers for the EPA regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 329 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Bulk gasoline terminals.

Estimated Number of Respondents: 40.

Frequency of Response: Initially, and occasionally.

Estimated Total Annual Hour Burden: 13,165.

Estimated Total Annual Cost: \$1,260,230, which includes \$1,260,230 in labor costs exclusively, with neither capital/startup costs nor operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. Consultations with the Office of Air Quality Planning and Standards (OAQPS) and trade associations revealed that there are approximately 40 sources subject to the rule, with no new facilities expected to be constructed over the next three years of this ICR.

However, there is an increase in the estimated burden cost as currently identified in the OMB Inventory of Approved Burdens. The increase is not due to any program changes, but the

change in burden is due to the use of the most updated labor rates.

Dated: November 30, 2011.

Director, Collection Strategies Division.

Re: Notice of Debarment

File No. EB-11-IH-1075

Dear Mr. White:

The Federal Communications Commission ("Commission") hereby notifies you that, pursuant to Section 54.8 of its rules, you are prohibited from participating in the schools and libraries universal service support mechanism ("E-Rate program") for three years from either the date of your receipt of this Notice of Debarment, or of its publication in the **Federal Register**, whichever is earlier in time ("the Debarment Date").¹

On July 27, 2011, the Commission's Enforcement Bureau ("Bureau") sent you a Notice of Suspension and Initiation of Debarment Proceedings ("Notice of Suspension")² that was published in the **Federal Register** on August 25, 2011.³ The Notice of Suspension suspended you from participating in activities associated with or relating to the schools and
