**Abstract:** The Oklahoma State Department of Education (OSDE) would like to address disparities in instructional quality by increasing the use of research-based early learning practices in PreK and kindergarten classrooms. OSDE, Anadarko Public Schools, Shawnee Public Schools, and the Regional Educational Laboratory (REL) Southwest formed the Leading Early Childhood Achievement and Development (LEAD) partnership in Oklahoma to respond to this need. Since 2023, REL Southwest has collaborated with these partners to codevelop, iteratively refine, and test a professional learning intervention (referred to as the LEAD intervention). The LEAD intervention is designed to complement and fully support the use of Oklahoma's Academic Standards and district-selected curricula. The intervention aims to build school leaders' and PreK and kindergarten teachers' knowledge of research-based early learning practices—play-based instructional practices and high-quality interactions. In addition, the LEAD intervention aims to develop school leaders' instructional leadership skills and provide resources to support PreK and kindergarten teachers' implementation of research-based practices. In time, these practices are expected to lead to better academic outcomes for students.

REL Southwest is developing the LEAD intervention through an approved Training, Coaching, and Technical Support (TCTS) project. To increase the likelihood that the LEAD intervention will achieve its intended outcomes, the partnership is also studying the usability, feasibility, and acceptability of the core components of the LEAD
