

requesting information from official military personnel files).

Estimated total annual burden hours: 827 hours.

Abstract: The information collection is prescribed by EO 12862 issued September 11, 1993, which requires Federal agencies to survey their customers concerning customer service. The general purpose of this data collection is to initially support the business process reengineering (BPR) of the MPR reference service process and then provide MPR management with an ongoing mechanism for monitoring customer satisfaction. In particular, the purpose of the National Personnel Records Center (NPRC) Survey of Customer Satisfaction is to (1) provide baseline data concerning customer satisfaction with MPR's reference service process, (2) identify areas within the reference service process for improvement, and (3) provide MPR management with customer feedback on the effectiveness of BPR initiatives designed to improve customer service as they are implemented. In addition to supporting the BPR effort, the National Personnel Records Center (NPRC) Survey of Customer Satisfaction will help NARA in responding to performance planning and reporting requirements contained in the Government Performance and Results Act (GPRA).
