

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Environmental Impact Statement: Kenosha, Racine, Milwaukee, Waukesha, Washington, Dodge, Fond Du Lac, Winnebago, Outagamie and Brown Counties, Wisconsin**

AGENCY: Federal Highway Administration (FHWA), Department of Transportation.

ACTION: Revised Notice of Intent.

SUMMARY: The FHWA is issuing this revised notice to advise the public that FHWA and Wisconsin Department of Transportation (WisDOT) will not prepare a Tier 1 Environmental Impact Statement (EIS) for the proposed Interstate conversion of U.S. Highway 41 in Milwaukee, Waukesha, Washington, Dodge, Fond du Lac, Winnebago, Outagamie, and Brown Counties, Wisconsin. A Notice of Intent to prepare an EIS was published in the **Federal Register** on July 26, 2011.

FOR FURTHER INFORMATION CONTACT: Tracey Blankenship, Major Projects Program Manager, Federal Highway Administration, 525 Junction Road, Suite 8000, Madison, WI 53717; Telephone: (608) 829-7500. You may also contact Tammy Rabe, Wisconsin Department of Transportation, 944 Vanderperren Way, Green Bay, WI 54324; Telephone: 920-492-5661.

SUPPLEMENTARY INFORMATION: The FHWA, in cooperation with WisDOT, will not prepare an EIS as previously intended on a proposal to convert U.S. Highway 41 to an Interstate in Milwaukee, Waukesha, Washington, Dodge, Fond du Lac, Winnebago, Outagamie, and Brown Counties, Wisconsin. Under Sections 1304(b) and (c) of the Safe, Accountable, Flexible, Efficient, Transportation Equity Act—A Legacy for Users (SAFETEA-LU) the 142-mile U.S. Highway 41 corridor between Milwaukee and Green Bay was designated as a High Priority Corridor on the National Highway System and as a future part of the Interstate System.

FHWA and WisDOT selected a tiered EIS as the project's document type because of uncertainty about the project's level of controversy and potentially significant impacts caused by the Interstate's more restrictive oversize and overweight regulations, more restrictive off-property outdoor advertising regulations, the change in route number, and potential future improvements required to bring U.S. Highway 41 to Interstate standards. Input received from participating agencies, cooperating agencies, the

public, the business community, trucking industry and outdoor advertising industry, throughout the project as well as at 6 public information meetings held in May 2012, has shown support for the project and a lack of controversy. Impacts of installing Interstate signs and future improvements related to the Interstate conversion were analyzed to determine impacts on socioeconomic and natural resources as well as the trucking and outdoor advertising industries. As a result of this analysis, FHWA and WisDOT determined that Interstate conversion meets the definition of a categorical exclusion as described in 23 CFR 771.117 and 40 CFR 1508.4, and based on past experience with similar actions, does not have significant environmental impacts. FHWA and WisDOT will complete an Environmental Report to document environmental analyses, impacts of the proposed project, and the detailed basis for the determination that the project meets the definition of a categorical exclusion. At a February 2013 meeting, Participating and Cooperating Agencies, including USEPA, Wisconsin DNR, and USACE, concurred with FHWA's and WisDOT's proposal. FHWA and WisDOT will continue agency coordination and public involvement activities with the change in document type.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION**Federal Highway Administration****Environmental Impact Statements; National Summary of Rescinded Notices of Intent**

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice.

SUMMARY: The FHWA is issuing this notice to advise the public that five States have rescinded Notices of Intent (NOIs) to prepare nine Environmental Impact Statements (EIS) for proposed highway projects. The FHWA Division Offices, in consultation with the State departments of transportation (State DOT), determined that three projects were no longer viable and have formally cancelled the projects. No further Federal resources will be expended on these projects; the environmental review process has been terminated. Four projects are being reassessed and may be reconsidered in whole or in part, by the State DOT at a later time. One project is being rescoped and may not require an EIS. Finally, one project was rescinded without a specific reason for its rescission.

FOR FURTHER INFORMATION CONTACT: Bill Ostrum, Office of Project Development and Environmental Review, (202) 366-4651; Janet Myers, Office of the Chief Counsel, (202) 366-2019; Federal Highway Administration, 1200 New Jersey Avenue SE., Washington, DC 20590.

Background

The FHWA, as lead Federal agency under the National Environmental Policy Act (NEPA) and in furtherance of its oversight and stewardship responsibilities under the Federal-aid highway program, periodically requests that its Division Offices review, with the State DOTs, the status of all EISs and place those projects that are not actively progressing in a timely manner in an inactive project status. The FHWA maintains lists of active and inactive EIS projects on its Web site at <http://www.environment.fhwa.dot.gov/>. The FHWA has determined that inactive projects that are no longer a priority or that lack financial resources should be
