in advance by September 18, 2015. Please register by contacting Jessica Snowden, Designated Federal Official at email: Jessica.snowden@noaa.gov or tel (301) 713–3070 x 141. Webinar and teleconference information will be provided to registrants prior to the meeting. While the meeting will be open to the public, webinar and

teleconference capacity may be limited. The Committee was established by the NOAA Administrator as directed by Section 12304 of the Integrated Coastal and Ocean Observation System Act, part of the Omnibus Public Land Management Act of 2009 (Pub. L. 111-11). The Committee advises the NOAA Administrator and the Interagency Ocean Observation Committee (IOOC) on matters related to the responsibilities and authorities set forth in section 12302 of the Integrated Coastal and Ocean Observation System Act of 2009 and other appropriate matters as the Under Secretary refers to the Committee for review and advice.

The Committee will provide advice on:

(a) Administration, operation, management, and maintenance of the System;

(b) expansion and periodic modernization and upgrade of technology components of the System;

- (c) identification of end-user communities, their needs for information provided by the System, and the System's effectiveness in dissemination information to end-user communities and to the general public; and
- (d) any other purpose identified by the Under Secretary of Commerce for Oceans and Atmosphere or the Interagency Ocean Observation Committee.

The meeting will be open to public participation with a 15-minute public comment period on September 22, 2015, from 2:45 p.m. to 3:00 p.m. (check agenda on Web site to confirm time.) The Committee expects that public statements presented at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to a total time of three (3) minutes. Written comments should be received by the Designated Federal Official by September 15, 2015 to provide sufficient time for Committee review. Written comments received after September 15, 2015, will be distributed to the Committee, but may not be reviewed prior to the meeting date.

Matters To Be Considered: The meeting will focus on review of draft recommendations including ICOOS Act reauthorization, regional IOOS certification, and addressing the need for resilient communities. The agenda is subject to change. The latest version will be posted at http://www.ioos.noaa.gov/advisorycommittee.

Dated: August 28, 2015.

Zdenka Willis,

Director, U.S. Integrated Ocean Observing System Office.

RIN 0648-XD560

Marine Mammals; File No. 18208

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permit.

SUMMARY: Notice is hereby given that a permit has been issued to Randy Sacco, Ph.D., Ruminant Diseases and Immunology Research Unit, National Animal Disease Center, 1920 Dayton Road, P.O. Box 70, Ames, IA 50010, to receive cell line specimens of Atlantic spotted (Stenella frontalis), Atlantic bottlenose (Tursiops truncatus), and common (Delphinus delphis) dolphin for scientific research purposes.

ADDRESSES: The permit and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

FOR FURTHER INFORMATION CONTACT: Amy Sloan or Jennifer Skidmore, (301) 427–8401.

SUPPLEMENTARY INFORMATION: On October 28, 2014, notice was published in the Federal Register (70 FR 64174) that a request for a permit to receive cell line specimens from the species identified above for scientific research purposes had been submitted by the above-named applicant. The requested permit has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.), and the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The permit authorizes the applicant to receive cell lines from up to two Atlantic spotted, three Atlantic bottlenose, and three common dolphins

to study mechanisms whereby respiratory pathogens alter dolphin antiviral or cytokine/chemokine responses using a parainfluenza virus isolated from a bottlenose dolphin. The objective is to provide information on how influenza viruses affect dolphins and potentially induce disease. Cell lines will be obtained from the American Type Culture Collection or other permitted researchers authorized to maintain cell lines, and would be analyzed at the National Animal Disease Center in Ames, IA. The permit is valid for 5 years from the date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Dated: August 24, 2015.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.
