POLICY JUSTIFICATION

Belgium—F-16 Sustainment

The Government of Belgium has requested to buy additional F-16 sustainment support that will be added to a previously implemented case. The original FMS case, valued at \$98.4 million, included F-16 sustainment, consisting of AN/ARC-210 radios; classified software, CPINs, and software integration support; EW database support; test support and equipment; aircraft and munitions support and support equipment; flight simulator support; additional hardware and software delivery and support; spare and repair parts, consumables and accessories; maintenance and maintenance support; mission planning system sustainment; facilities, utilities, and information technology support at U.S. Air Force bases; classified and unclassified publications and technical documentation; and U.S. Government and contractor engineering, technical and logistics support services, studies and surveys; and other related elements of logistical and program support. This notification will include more of the same items and services. The estimated total cost is \$127 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a NATO ally which is an important force for political stability and economic progress in Europe.

The proposed sale will improve Belgium's capability to meet current and future threats by maintaining its F-16 fleet in combat-ready status and providing rotational forces to NATO's Eastern flank. Belgium will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin, Bethesda, MD. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Belgium.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 22-39

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology*:

1. The AN/ARC-210 is a voice communications radio system equipped with HAVE QUICK II, which employs cryptographic technology. Other waveforms may be included as needed.

2. The Electronic Warfare Integrated Reprogramming Database (EWIRDB) is used by USG engineers in the reprogramming and creation of shareable Mission Data Files for the AN/ALQ-131 electronic countermeasures pod on the F-16 aircraft.

3. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

4. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

5. A determination has been made that Belgium can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

6. All defense articles and services listed in this transmittal have been

authorized for release and export to the Government of Belgium.

Office of the Secretary

[Docket ID: DoD-2023-OS-0081]

Submission for OMB Review; Comment Request

AGENCY: Office of the Under Secretary of Defense for Personnel and Readiness (OUSD(P&R)), Department of Defense (DoD).

ACTION: 30-Day information collection notice.

SUMMARY: The DoD has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act.

DATES: Consideration will be given to all comments received by July 15, 2024.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Reginald Lucas, (571) 372-7574, whs.mc-alex.esd.mbx.dd-dod-information-collections@mail.mil.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Assessing the Implementation and Effectiveness of DOD's Lethal Means Safety (LMS) Outreach Materials—Army LMS Toolkit Key Personnel Baseline and Follow-up Interviews; OMB Control Number 0704-ALAR.

Type of Request: New.

Number of Respondents: 25.

Responses per Respondent: 1.

Annual Responses: 25.

Average Burden per Response: 1.5 hours.

Annual Burden Hours: 37.5 hours.

Needs and Uses: The Deputy Secretary of Defense recently directed implementation of Service tailored lethal means safety (LMS) plans, which leverage the Defense Suicide Prevention Office's (DSPO's) LMS suite of evidence-informed tools. In accordance with guidance, and with recommendations from the Government

Accountability Office to assess the efficacy of nonclinical suicide prevention efforts, DSPO aims to help the Services conduct a thorough evaluation of their LMS outreach efforts.

DSPO has contracted with the Center for Naval Analyses (CNA) to assist the Services in meeting the requirements set forth in DOD Instruction 6490.16 that all suicide prevention activities are developed from a relevant evidence-base and have an evaluation capability prior to implementation. CNA, in conjunction with the participating Services (*i.e.*, Air Force, Army, Navy, and Special Operations Command, propose an information collection covering LMS evaluation activities specific to the needs of each respective Service to assess the implementation, acceptability, and/or effect of their specific LMS activities and materials. Depending on the nature of the selected evaluation activities, study data will be collected via key informant (KI) interviews and/or a survey.

This FRN covers the evaluation activity specific to the Army. The intent of voluntary Army LMS Toolkit Key Personnel Baseline and Follow-up Interviews is to consult with key Army personnel to gain a better understanding of the implementation and utility of the Army's new LMS Toolkit.

The Army will use the results of the KI interviews to tailor their LMS activities, materials, messaging, training, and outreach efforts to maximize their

effectiveness with their Servicemembers and communities.

Affected Public: Individuals or households.

Frequency: As required.

Respondent's Obligation: Voluntary.

OMB Desk Officer: Ms. Jasmeet Seehra.
