

information from public review, we cannot guarantee that we will be able to do so. The minutes and list of attendees for each scoping meeting will be available to the public and open for 30 days after the meeting to any participant who wishes to clarify the views he or she expressed. The BLM will evaluate identified issues to be addressed in the plan, and will place them into one of three categories:

1. Issues to be resolved in the plan amendment;
2. Issues to be resolved through policy or administrative action; or
3. Issues beyond the scope of this plan amendment.

The BLM will provide an explanation in the Draft RMP/Draft EA as to why an issue was placed in category two or three. The public is also encouraged to help identify any management questions and concerns that should be addressed in the plan. The BLM will work collaboratively with interested parties to identify the management decisions that are best suited to local, regional, and national needs and concerns.

The BLM will use an interdisciplinary approach to develop the plan amendment and EA in order to consider the variety of resource issues and concerns identified. Specialists with expertise in the following disciplines will be involved in the plan amendment and development of the associated EA: Rangeland management, geology, soils, wildlife and fisheries, archaeology, outdoor recreation, and realty.

Authority: 40 CFR 1501.7 and 43 CFR 1610.2.

Timothy M. Murphy,
Acting BLM Idaho State Director.
