### Decision of the Governors of the United States Postal Service on Mail Classification Schedule Changes Concerning International Money Transfer Service—Outbound and International Money Transfer Service—Inbound (Governors' Decision No. 24-2)

February 8, 2024

#### Statement of Explanation and Justification

Pursuant to our authority under section 404(b) and Chapter 36 of title 39, United States Code, the Governors establish classification changes to the International Money Transfer Service (IMTS)—Outbound product and the IMTS—Inbound product, to occur in three phases.

As for the first phase, the IMTS—Outbound product includes an Electronic Money Transfer service that enables customers to make payments or transfer funds to individuals or firms in foreign destinations. Electronic money transfers are available through the Sure Money (DineroSeguro) service, which is based on an agreement with a financial services company. During the last few years there have been significant declines in the number of electronic money transfers purchased from the Postal Service, and despite substantial historical price increases, the Sure Money (DineroSeguro) service has not covered its costs. Thus, the Postal Service intends to terminate the Sure Money (DineroSeguro) service by removing the prices and price categories in Mail Classification Schedule section 2620 that concerns IMTS—Outbound.

As for the second and third phases, IMTS—Outbound enables customers to make payments or transfer funds to individuals or firms in foreign destinations. This product includes hardcopy international postal money orders, which may be offered in cooperation with foreign postal operators. IMTS—Inbound provides a service to foreign postal operators for cashing of hard copy international postal money orders sent to recipients in the United States. During the last few years there have been significant declines in the number of international postal money orders sold and cashed by the Postal Service, and despite substantial historical price increases, the international postal money order service has not covered its costs.

Currently, both the outbound and inbound international postal money

order services are based on underlying bilateral agreements executed with various foreign postal operators. During the last few years, there have been significant declines in the number of international postal money orders purchased. Thus, the Postal Service intends to terminate both the outbound and inbound international postal money order services, first by terminating the sales of international postal money orders and removing the text concerning the IMTS—Outbound product from the Mail Classification Schedule, and then by terminating the cashing of international postal money orders and removing the text concerning the IMTS—Inbound product from the Mail Classification Schedule.

We have evaluated the classification changes to IMTS—Outbound and IMTS—Inbound in this context in accordance with 39 U.S.C. 3632 and § 3642. We approve the changes, finding that they are appropriate, and are consistent with the applicable criteria.

**Order**

We direct management to coordinate with the U.S. Department of State concerning the termination of the underlying bilateral agreements in order to determine the consistency of this

action with the Universal Postal Union Postal Payment Services Agreement, and to file with the Postal Regulatory Commission the required documents and supporting documents consistent with this Decision. The changes in classification to the Mail Classification Schedule set forth herein shall be implemented in the following three phases,

- The removal of prices for Sure Money (DineroSeguro) for IMTS—Outbound from the Mail Classification Schedule, effective July 14, 2024, or as soon as practicable thereafter (Phase I),
- The removal of the IMTS—Outbound product from the Mail Classification Schedule, effective October 1, 2024, or as soon as practicable thereafter (Phase II),
- The removal of the IMTS—Inbound product from the Mail Classification Schedule, effective October 1, 2025, or as soon as practicable thereafter (Phase III).
