Under the jurisdiction of ONMS and to satisfy legal mandates, the National Oceanic and Atmospheric Administration (NOAA) is authorized to conduct evaluations, such as this information collection, under section 314(c) of the American Innovation and Competitiveness Act to ensure education programs have measurable objectives and milestones as well as clear, documented metrics for evaluating its programs.

For example, the Mokuāpapa Discovery Center (Center) is an outreach arm of Papahānaumokuākea Marine National Monument that reaches more than 75,000 people each year in Hilo, Hawai'i. The Center was created almost two decades ago to help raise support for the creation of a national marine sanctuary in the Northwestern Hawaiian Islands. Since that time, the area has been proclaimed a marine national monument and the main messages we are trying to share with the public have changed to better reflect the new monument status, UNESCO World Heritage status, and the joint management by the three co-trustees of the monument.

ONMS recently updated its Strategic Plan and has identified a lack of information on the effectiveness of its education, outreach, and communications initiatives as they relate to sanctuary/monument visitor centers, exhibits (permanent or traveling/temporary), kiosks, and educational programming conducted by its visitor centers and partner facilities.

We therefore are conducting an optional exit survey to determine if people visiting ONMS' visitor centers and exhibits are receiving our new messages. ONMS is requesting to conduct a survey to evaluate patron acuity to determine successful concept attainment. Conducting thorough evaluations will aid in vital decisions regarding exhibit renovation, new exhibits, interpretation programs, and educational content.

II. Method of Collection

Information collection is voluntary via completion of an ONMS Visitor Center and Exhibit Survey provided at the ONMS and Partner Outreach Facilities.

SUPPLEMENTARY INFORMATION: The CFPB is modifying its Privacy Act System of Records Notice (SORN) “CFPB.027—Emergency Notification System” to

update the “Categories of Records in the System” and “Record Source Categories” sections to note that due to the transition to a hybrid working environment, collection of personal contact information from individuals covered by the system is no longer voluntary as previously indicated. While the type and amount of personal contact information collected remains the same, the personal contact information is now automatically collected from an authoritative human resource system. The CFPB has also updated the “Policies and Practices for Retention and Disposal of Records” section to include a National Archives and Records Administration (NARA) approved schedule applicable to the records maintained in the system. Additionally, the “Routine Uses” section has been updated to include sharing with NARA for purposes of inspection, in accordance with applicable law. Furthermore, CFPB is making non-substantive revisions to the “Policies and Practices for Storage of Records” to eliminate duplication of the “Administrative, Technical and Physical Safeguards” section and throughout the SORN to align with the Office of Management and Budget’s recommended model in Circular A–108, appendix II.

The report of the revised system of records has been submitted to the Committee on Oversight and Government Reform of the House of Representatives, the Committee on Homeland Security and Governmental Affairs of the Senate, and the Office of Management and Budget (OMB), pursuant to OMB Circular A–108, “Federal Agency Responsibilities for Review, Reporting, and Publication under the Privacy Act” (Dec. 2016),¹ and the Privacy Act of 1974, 5 U.S.C. 552a(r).
