The selected Federal lands and offered tribal lands occur within the Santa Rosa and San Jacinto Mountains National Monument. The exchange would transfer all or portions of the following described Federal lands to the Agua Caliente Band of Cahuilla Indians:

San Bernardino and Base Meridian, California

T.4S. R.4E.

Section 16, all;

Section 17, W1/2NW1/4NE1/4, W1/2E1/2NW1/4NE1/4;

Section 18, W1/2NE1/4, N1/2NE1/4SW1/4, S1/2 of lot 1, N1/2 of lot 2;

Section 36, lots 1–4, W1/2NE1/4, W1/2SE1/4, E1/2SW1/4, SE1/4NW1/4, N1/2SW1/4SW1/4, E1/2NW1/4SW1/4, SW1/4NW1/4SW1/4, S1/2NW1/4NW1/4SW1/4.

T.5S. R.4E.

Section 5, lots 1–4, S1/2NE1/4, S1/2NW1/4, S1/2;

Sections 16, 21, 27, 29, 32, and 36, all.

The described Federal lands were withdrawn from all forms of appropriation under the public land laws and mining laws under Public Law 106–351 dated October 24, 2000. However, Section 5(i) of Public Law 106–351 specifically allows the exchange of Federal lands within the monument in certain circumstances.

The United States would acquire all or portions of the following described land from the Agua Caliente Band of Cahuilla Indians:

San Bernardino and Base Meridian, California

T.5S. R. 5E.

Section 7, all;

Section 19, all;

Section 20, W1/2W1/2.

The Draft EIS describes and analyzes alternatives based on varying amounts of Federal lands to be exchanged for tribal lands, as well as the no action alternative. The BLM's preferred alternative eliminates certain Federal lands from consideration that, if exchanged, would be contrary to the purpose of the exchange, which is to promote effective and efficient management of the Federal and tribal lands by reducing the extent of "checkerboard" landownership, thereby providing the BLM and the Tribe with more logical and consistent land management responsibility in the Monument.

Important issues identified by the public during scoping address purpose and need for the proposed land exchange; conformance with statutes, regulations, policies, and land use plans; development of alternatives and mitigation measures; public access to trails; protection of threatened and endangered species; and potential development of exchanged lands. Responses to specific questions related to these issues are provided in the Draft EIS. Lands acquired by the BLM through the land exchange would be managed in accordance with applicable statutes and regulations, as well as the California Desert Conservation Area Plan, as amended, and the Santa Rosa and San Jacinto Mountains National Monument Management Plan. Lands acquired by the Tribe would be managed in accordance with its Land Use Ordinance, Indian Canyons Master Plan, and Tribal Habitat Conservation Plan.

Public participation has been sought through a comment period provided for an Environmental Assessment that preceded preparation of the Draft EIS, and during the scoping process to identify issues to be addressed in the Draft EIS for the proposed land exchange. Please note that public comments and information submitted including names, street addresses, and email addresses of persons who submit comments will be available for public review and disclosure at the above address during regular business hours (8 a.m. to 4 p.m.), Monday through Friday, except holidays.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.
