*Title of Collection:* Case Service Report (RSA–911).*OMB Control Number:* 1820–0508.*Type of Review:* Extension without change of a currently approved collection.*Respondents/Affected Public:* State, Local, and Tribal Governments.*Total Estimated Number of Annual Responses:* 312.*Total Estimated Number of Annual Burden Hours:* 34,446.*Abstract:* The Case Service Report (RSA–911) is used to collect individual level data on State Vocational Rehabilitation (VR) program participants on a quarterly basis. The data collected in this report are mandated by section 101(a)(10) and 607 of the Rehabilitation Act of 1973 (Act), as amended by title IV of the Workforce Innovation and Opportunity Act (WIOA) and section 116(d) of WIOA. In addition, the Rehabilitation Services Administration (RSA) uses data reported through this collection to support its other responsibilities under the Act. Section 14(a) of the Act calls for the evaluation of programs authorized under the Act, as well as an assessment of the programs’ effectiveness in relation to cost. Many of these evaluations use RSA–911 data. RSA also uses data captured through the RSA–911 during the conduct of both the annual review and periodic on-site monitoring of VR agencies required by section 107 of the Act to examine the effectiveness of program performance. Other important management activities, such as the provision of technical assistance, program planning, and budget preparation and development, are greatly enhanced through the use of RSA–911 data. In addition, RSA uses RSA–911 data in the exchange of data under a data sharing agreement with the Social Security Administration and the U.S. Department of Health and Human Services as required by section 131 of the Act. Finally, the RSA–911 is considered to be one of the most robust databases in describing the demographics of the disabled population in the country and as such is used widely in researchers’ disability-related analyses and reports.
