and other Federal agencies to comment
on proposed information collections. On

published a notice and request for
comments in the **Federal Register** (86
FR 22666) regarding the agency's

extension of OMB clearance. The
Commission has submitted the
described information collection to
OMB for approval.

In response to this notice, comments
and suggestions should address one or

necessity and utility of the proposed
information collection for the proper
performance of the agency's functions;
(2) the accuracy of the estimated
burden; (3) ways to enhance the quality,

Title: 46 CFR part 565—Controlled
Carriers.

OMB Approval Number: 3072-0060
(Expires September 30, 2021).

Abstract: 46 U.S.C. 40701-40706
requires that the Commission monitor
the practices of controlled carriers to
ensure that they do not maintain rates
or charges in their tariffs and service
contracts that are below a level that is
just and reasonable; nor establish,
maintain or enforce unjust or
unreasonable classifications, rules or
regulations in those tariffs or service
contracts which result or are likely to
result in the carriage or handling of
cargo at rates or charges that are below
a just and reasonable level. 46 CFR part
565 establishes the method by which
the Commission determines whether a

particular ocean common carrier is a
controlled carrier subject to 46 U.S.C.
40701-40706. When a government
acquires a controlling interest in an
ocean common carrier, or when a
controlled carrier newly enters a United
States trade, the Commission's rules
require that such a carrier notify the
Commission of these events.

Current Actions: There are no changes
to this information collection, and it is
being submitted for extension purposes
only.

Type of Review: Extension.

Needs and Uses: The Commission
uses these notifications in order to
effectively discharge its statutory duty
to determine whether a particular ocean
common carrier is a controlled carrier
and therefore subject to the
requirements of 46 U.S.C. 40701-40706.

Frequency: The submission of
notifications from carriers is not
assigned to a specific time frame by the
Commission; they are submitted as
circumstances warrant.

Type of Respondents: Ocean common
carriers when a majority portion of the
carrier becomes owned or controlled by
a government, or when a controlled
carrier newly begins operation in any
United States trade.

Number of Annual Respondents:
Based on filings over the past three
years, the Commission estimates one
respondent annually.

Estimated Time per Response: The
estimated time for each notification is 2
hours.

Total Annual Burden: For purposes of
calculating total annual burden, the
Commission assumes one response
annually. The Commission thus
estimates the total annual burden to be
2 hours (1 response × 2 hours per
response).

Rachel Dickon,

Secretary.

award of approximately \$3,190,000 in
coronavirus disease 2019 (COVID-19)
funding in response to an unsolicited
application that has been submitted by
the Association of University Centers on
Disability (AUCD) to address vaccine

SUPPLEMENTARY INFORMATION: The
single-source award will address
vaccine hesitancy and accessibility
among people with disabilities, their
