### III. Request for Comments on the Candidates List

#### A. Will *ad hoc* reviewers be subjected to an ethics review?

EPA is currently seeking public comments on all interested and available candidates, without prescreening for ethics concerns. However, SACC members and *ad hoc* peer reviewers are subject to the provisions of the Standards of Ethical Conduct for Employees of the Executive Branch at 5 CFR part 2635, conflict of interest statutes in title 18 of the United States Code and related regulations. In anticipation of this requirement, prospective candidates for service on the SACC will be asked to submit confidential financial information which shall fully disclose, among other financial interests, the candidate's employment, stocks and bonds, and where applicable, sources of research support. EPA will evaluate the candidates' financial disclosure forms to assess whether there are financial conflicts of interest, appearance of a loss of impartiality, or any prior involvement with the development of the documents under consideration (including previous scientific peer review) before the candidate is considered further for service on the SACC as a peer reviewer.

#### B. How will EPA select the *ad hoc* reviewers?

The selection of scientists to serve as *ad hoc* peer reviewers for the SACC is based on the function of the Committee and the expertise needed to address the Agency's charge to the Committee. No interested scientists shall be ineligible to serve by reason of their membership on any other advisory committee to a federal department or agency or their employment by a federal department or agency, except EPA. Other factors considered during the selection process include availability of the prospective candidate to fully participate in the Committee's reviews, absence of any conflicts of interest or appearance of loss of impartiality, independence with respect to the matters under review, and lack of bias. Although financial conflicts of interest, the appearance of loss of impartiality, lack of independence, and

bias may result in non-selection, the absence of such concerns does not assure that a candidate will be selected to serve on the SACC.

Numerous qualified candidates are often identified for SACC reviews. Therefore, selection decisions involve carefully weighing a number of factors including the candidates' areas of expertise and professional qualifications and achieving an overall balance of different scientific perspectives across reviewers.

**Total Annual Burden:** 173,440 hours.

**Total Annual Cost:** No cost.

**Needs and Uses:** On December 29, 2020, the Commission adopted *Advanced Methods to Target and Eliminate Unlawful Robocalls Fourth Report and Order* ("Call Blocking Fourth Report and Order"). Unwanted and illegal robocalls have long been the Federal Communication Commission's ("Commission") top source of consumer complaints and one of the Commission's top consumer protection priorities. In 2019, Congress passed the Pallone-Thune Telephone Robocall Abuse Criminal Enforcement and Deterrence (TRACED) Act. In addition to directing the Commission to mandate adoption of caller ID authentication technology and encourage voice service providers to block calls by establishing safe harbors, the TRACED Act directs the Commission to ensure that both consumers and callers are provided

with transparency and effective redress when calls are blocked in error. In the *Call Blocking Fourth Report and Order*, the Commission took several steps to better protect consumers from unwanted and illegal robocalls, and implement the TRACED Act. The Commission expanded the existing safe harbor for blocking of calls, established affirmative requirements to ensure that voice service providers better police their networks against illegal calls, and adopted several transparency and redress requirements to ensure that erroneous blocking can be quickly identified and remedied.

47 CFR 64.1200(k)(1), originally adopted in the *Call Blocking Fourth Report and Order* requires any terminating voice service provider that blocks calls on an opt-in or opt-out basis to provide, on the request of the subscriber to a particular number, a list

of all calls intended for that number that the voice service provider or its designee has blocked. The list must include the prior 28 days of blocked calls and must be provided to the subscriber within 3 business days.

The TRACED Act expressly directs the Commission to ensure that both consumers and callers are provided with transparency. In the *Call Blocking Fourth Report and Order*, the Commission determined that, while opt-in or opt-out blocking must already be disclosed to consumers, a consumer may be unaware that particular calls are blocked absent such a list. Consumers can use the list to determine whether to opt out of blocking services or reach out to callers whose calls may have been blocked.
