Economic Research Service

Title: National Household Food Acquisition and Purchase Survey.

OMB Control Number: 0536-NEW.

Summary of Collection: The Economic Research Service (ERS) will be conducting the National Household Food Acquisition and Purchase Survey (aka National Food Study). The mission of ERS is to provide timely research and analysis to public and private decision makers on topics related to agriculture, food, the environment, and rural America. To achieve this mission, ERS requires a variety of data that describe agricultural production, food distribution channels, availability and price of food at the point of sale, and household demand for food products. There is a great need for the above information as it relates to low-income households. It is critical for USDA to better understand the food acquisition behaviors of low-income, program-eligible households in order to effectively serve this segment of the population with efficient and effective programs. Section 17 (U.S.C. 2026)(a)(1) of the Food and Nutrition Act of 2008 provides legislative authority for the planned data collection. This section authorizes the Secretary of Agriculture to enter into contracts with private institutions to undertake research that will help to improve the administration and effectiveness of the Supplemental Nutrition Assistance Program (SNAP) in delivering nutrition-related benefits.

Need and Use of the Information: The National Food Study will collect information about household food acquisitions, including foods purchased and foods obtained at no cost (e.g., home-grown vegetables). Information also will be collected about household characteristics, including demographics, income, major categories of nonfood expenditures, food security, health status (including heights and weights), and dietary knowledge. This survey will provide ERS with information to support the analysis of a wide variety of research questions.

Description of Respondents: Individuals or household.

Number of Respondents: 24,675.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 44,695.

Ruth Brown,

Departmental Information Collection Clearance Officer.

Individuals and organizations who wish to nominate experts for this or any other USDA advisory Council should submit a letter to the Secretary listing these individuals' names and business address, phone, and email contact information. The Secretary of Agriculture seeks a diverse group of members representing a broad spectrum of persons interested in providing suggestions and ideas on how USDA can tailor its farm programs to meet the needs of Native American farmers and ranchers.
