SUPPLEMENTARY INFORMATION:

I. Background

Pursuant to the savings clause in the Homeland Security Act of 2002, Public Law 107-296, Section 1512, 116 Stat. 2310 (November 25, 2002), the DHS and its component agency ICE have relied on preexisting Privacy Act systems of records notices for the collection and maintenance of records pertaining to information received from confidential and other sources. As a law enforcement investigatory agency, ICE collects and maintains information regarding possible violations of law from a

number of sources, including confidential sources, State, local, tribal and Federal law enforcement agencies, and members of the public. As part of its efforts to streamline and consolidate its record systems, DHS is establishing a component system of records under the Privacy Act (5 U.S.C. 552a) for ICE to cover these records. This new system of records will allow ICE to collect and maintain records concerning the identities of and information received from documented confidential sources and other sources who supply information to ICE regarding possible violations of law or otherwise in support of law enforcement investigations and activities.

In accordance with the Privacy Act of 1974, DHS is giving notice that it proposes to consolidate three legacy record systems: Treasury/CS.053 Confidential Source Identification File (66 FR 52984 October 18, 2001), Treasury/CS.058 Cooperating Individual Files (66 FR 52984 October 18, 2001), and Treasury/CS.122 Information Received File (66 FR 52984 October 18, 2001), into a DHS/ICE system of records notice titled, United States Immigration and Customs Enforcement Information, and Confidential Sources. Categories of individuals, categories of records, and the routine uses of these legacy system of records notices have been consolidated and updated to better reflect the DHS/ICE Information, and Confidential Sources record systems. Additionally, DHS is issuing a Notice of Proposed Rulemaking (NPRM) concurrent with this SORN elsewhere in the **Federal Register**. The exemptions for the legacy system of records notices will continue to be applicable until the final rule for this SORN has been completed. This system will be included in the Department's inventory of record systems.

II. Privacy Act

The Privacy Act embodies fair information principles in a statutory framework governing the means by which the United States Government collects, maintains, uses, and disseminates individuals' records. The

Privacy Act applies to information that is maintained in a "system of records." A "system of records" is a group of any records under the control of an agency for which information is retrieved by the name of an individual or by some identifying number, symbol, or other identifying particular assigned to the individual. In the Privacy Act, an individual is defined to encompass United States citizens and lawful permanent residents. As a matter of policy, DHS extends administrative Privacy Act protections to all individuals where systems of records maintain information on U.S. citizens, lawful permanent residents, and visitors. Individuals may request access to their own records that are maintained in a system of records in the possession or under the control of DHS by complying with DHS Privacy Act regulations, 6 CFR Part 5.

The Privacy Act requires each agency to publish in the **Federal Register** a description denoting the type and character of each system of records that the agency maintains, and the routine uses that are contained in each system in order to make agency record keeping practices transparent, to notify individuals regarding the uses of their records, and to assist individuals to more easily find such files within the agency. Below is the description of the ICE Confidential and Other Sources of Information (COSI) System of Records. In accordance with 5 U.S.C. 552a(r), DHS has provided a report of this system of records to the Office of Management and Budget (OMB) and to Congress.
