

Mugu. While this DEIS analyzes other activities beyond the scope of this IHA request, Section 4.7 describes launches of target missiles from SNI and notes that these launches sometimes cause pinnipeds hauled out on beaches on the western end of SNI to move into the water. Accordingly, the U.S. Navy determined that it should request this 1-year IHA to ensure that its planned missile launch operations are conducted in full compliance with the MMPA.

Preliminary Conclusions

NMFS has preliminarily determined that the short-term impact of conducting missile launch operations from SNI in the Channel Islands off southern California will result, at worst, in a temporary modification in behavior by certain species of pinnipeds. While behavioral modifications may be made by these species as a result of launch activities, this behavioral change is expected to have a negligible impact on the animals.

While the number of potential incidental harassment takes will depend on the distribution and abundance of marine mammals in the vicinity of launch operations, the number of potential harassment takings is estimated to be small. In addition, no take by injury and/or death is anticipated, and the potential for temporary or permanent hearing impairment is low and will be avoided through the incorporation of the mitigation measures mentioned in this document.

Proposed Authorization

NMFS proposes to issue an IHA for 15 launches of Vandal (or similar) missiles and 5 launches of smaller subsonic targets from San Nicolas Island, CA westward towards the Point Mugu Sea Range for a 1-year period, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. NMFS has preliminarily determined that the proposed activity would result in the harassment of only small numbers of northern elephant seals, harbor seals, California sea lions, and northern fur seals; would have no more than a negligible impact on these marine mammal stocks; and, would not have an unmitigable adverse impact on the availability of marine mammal stocks for subsistence uses.

Information Solicited

NMFS requests interested persons to submit comments and information concerning this request (see **ADDRESSES**).

Tuesday, May 8, 2001, there will be a Dogfish Committee meeting (Mid-Atlantic Fishery Management Council section only) from 1-3 p.m. There will be a concurrent Comprehensive Management Committee meeting from 1-3 p.m.

Wednesday, May 9, 2001, the Executive Committee will meet from 8-11:30 a.m. There will be a concurrent Law Enforcement Committee meeting with Advisors from 8-11:30 a.m. Council will convene from 12:30-5:30 p.m. to receive a gear technology report and address Amendment 13 to the Summer Flounder, Scup, and Black Sea Bass FMP.

Thursday, May 10, 2001, the Council will convene to conduct regular business at 8 a.m. and is scheduled to adjourn at 4 p.m.

Meeting Agendas

Agenda items for the meetings are: the Dogfish Committee will review and consider Atlantic States Marine Fisheries Commission's (ASMFC) dogfish actions; and, review and consider development of Amendment 1 to the Dogfish Fishery Management Plan (FMP). The Comprehensive Management Committee will review the outcome of its priority setting process; evaluate and define Council priorities; and, develop an action plan. The Executive Committee will address timing of election of new officers; discuss pending summer flounder facilitated meeting with NMFS, ASMFC and stakeholders; review Scientific and Statistical Committee membership for appointment and reappointment purposes; discuss summer flounder Framework 3 (biological reference points) schedule; and, seek NMFS commitment to expedite summer flounder Framework 3 for 2002 implementation if necessary. The Law Enforcement Committee will review and discuss state and Federal law enforcement capabilities, activities and concerns; develop a MAFMC "Enforcement Guideline"; review law enforcement concerns regarding marine protected areas; and, review and recommend Fishery Achievement Award recipients. The Council will receive a report from Manomet regarding its Gear Technology Study, review and consider comments received from an earlier scoping meeting regarding Amendment 13 (black sea bass); develop management options to be included in the public hearing document for Amendment 13; review and discuss possible adoption of enforcement guidelines; review and approve Framework 2 management measures regarding extension of *Illex* moratorium, *Loligo* exemption in *Illex* fishery, real time management of *Loligo*, and rule roll-over for mackerel; receive a special report on NMFS MARFIN Program; approve March minutes; receive organizational and committee reports, including the New England Council's report where the Council may address possible actions on herring, groundfish, monkfish, red crab, scallops, skates, and whiting. The Council may also address possible actions from the South Atlantic Council. Although non-emergency issues not contained in this agenda may come before the Council for discussion, these issues may not be the subject of formal

Council action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the Council's intent to take final actions to address such emergencies.

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Joanna Davis at 302-674-2331 at least 5 days prior to the meeting date.
