Funded projects will support informal education institutions in incorporating this data visualization technology and compatible environmental data products into public exhibits. The goal of this program is to build environmental literacy among the general public through increased use of NOAA or NOAA-related data and data products in informal education

institutions. See NOAA's Education Plan for more details on this goal and strategy: (http://www.oesd.noaa.gov/NOAA_Ed_Plan.pdf). It is anticipated that final recommendations for funding under this announcement will be made by June 30, 2006, and that projects funded under this announcement will have a start date no earlier than October 1, 2006.

NOAA data and NOAA-related data, models, and near real-time whole-earth satellite imagery are provided with the SOS system. The current version of the standard, turnkey system will be provided to successful applicants. See http://www.oesd.noaa.gov/sos_faqs.html for more details. A detailed description for each program priority is in the full funding opportunity announcement that can be accessed via the Grants.gov Web site, the NOAA Web site at http://www.oesd.noaa.gov/funding_opps.html, or by contacting the program official identified in **FOR FURTHER INFORMATION CONTACT**.

Funding Availability

NOAA announces the availability of approximately \$200,000 of Federal financial assistance in FY 2006 for Science on a Sphere Installation Cooperative Agreements. Approximately 2 to 4 awards in the form of cooperative agreements will be made. NOAA will only consider projects that have duration of one year. The total Federal amount that may be requested from NOAA shall not exceed \$100,000 including direct and indirect costs. Applications requesting Federal support from NOAA of more than \$100,000 in total costs will not be considered for funding.

Publication of this notice does not oblige DOC/NOAA to award any specific project or to obligate any available funds. If an applicant incurs any costs prior to receiving an award agreement signed by an authorized NOAA Grants Officer, the applicant would do so solely at one's own risk of such costs not being included under the award.

Eligibility

Eligible applicants are institutions of higher education, other nonprofits, commercial organizations, and state, local and Indian tribal governments. Federal agencies are not eligible to receive Federal assistance under this announcement, but may be project partners. Among those eligible applicants are K through 12 public and independent schools and school systems, and science centers and museums. The Department of Commerce/National Oceanic and Atmospheric Administration (DOC/NOAA) is strongly committed to increasing the participation of Minority Serving Institutions (MSIs), i.e., Historically Black Colleges and Universities, Hispanic-serving institutions, Tribal colleges and universities, Alaskan Native and Native Hawaiian institutions, and institutions that work in underserved communities. Applications are encouraged that involve any of the above institutions.

Cost Sharing Requirements

There are no cost-sharing requirements.

Evaluation and Selection Procedures

NOAA published its agency-wide solicitation entitled "Omnibus Notice Announcing the Availability of Grant

Funds for Fiscal Year 2006" for projects for Fiscal Year 2006 in the **Federal Register** on June 30, 2005 (70 FR 37766). The evaluation criteria and selection procedures for projects contained in that omnibus notice are applicable to this solicitation. Copies of the notice are available on the Internet at: <http://www.ago.noaa.gov/grants/funding.shtml>. Further details on evaluation and selection criteria can be found in the full funding opportunity announcement.

Intergovernmental Review

Applications under this program are not subject to Executive Order 12372, "Intergovernmental Review of Federal Programs."

Limitation of Liability

In no event will NOAA or the Department of Commerce be responsible for application preparation costs if these programs fail to receive funding or are cancelled because of other agency priorities. Publication of this announcement does not oblige NOAA to award any specific project or to obligate any available funds.

National Environmental Policy Act (NEPA)

NOAA must analyze the potential environmental impacts, as required by the National Environmental Policy Act (NEPA), for applicant projects or proposals which are seeking NOAA Federal funding opportunities. Detailed information on NOAA compliance with NEPA can be found at the following NOAA NEPA Web site: <http://www.nepa.noaa.gov/>, including our NOAA Administrative Order 216-6 for NEPA, http://www.nepa.noaa.gov/NAO216_6_TOC.pdf, and the Council on Environmental Quality implementation regulations, http://ceq.eh.doe.gov/nepa/regs/ceq/toc_ceq.htm. Consequently, as part of an applicant's package, and under their description of their program activities, applicants are required to provide detailed information on the activities to be conducted, locations, sites, species and habitat to be affected, possible construction activities, and any environmental concerns that may exist (e.g., the use and disposal of hazardous or toxic chemicals, introduction of nonindigenous species, impacts to endangered and threatened species, aquaculture projects, and impacts to coral reef systems). In addition to providing specific information that will serve as the basis for any required impact analyses, applicants may also be requested to assist NOAA in drafting of an environmental assessment, if NOAA determines an assessment is required.

Applicants will also be required to cooperate with NOAA in identifying feasible measures to reduce or avoid any identified adverse environmental impacts of their proposal. The failure to do so shall be grounds for not selecting an application. In some cases if additional information is required after an application is selected, funds can be withheld by the Grants Officer under a special award condition requiring the recipient to submit additional environmental compliance information sufficient to enable NOAA to make an assessment on any impacts that a project may have on the environment.

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements

The Department of Commerce Pre-Award Notification Requirements for Grants and Cooperative Agreements contained in the **Federal Register** notice of December 30, 2004 (69 FR 78389), are applicable to this solicitation.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are individuals or representatives of Federal and non-Federal government agencies, community groups, non-profit organizations, and civic organizations requesting Armed Forces support for patriotic events conducted in the civilian domain. DD Forms 2535 and 2536 record the type of military support requested, event data, and sponsoring organization information. The completed forms provide the Armed Forces the minimum information necessary to determine whether an event is eligible for military participation and whether the desired support is permissible and/or available. If the forms are not provided, the review process is greatly increased because the Armed Forces must make additional written and telephonic inquiries with the event sponsor. In addition, use of the forms reduces the event sponsor's preparation time because the forms provide a detailed outline of information required, eliminate the
