97th Annual Meeting of the National Conference on Weights and Measures

AGENCY: National Institute of Standards and Technology (NIST), Commerce.

ACTION: Notice.

SUMMARY: The 97th Annual Meeting of the National Conference on Weights and Measures (NCWM) will be held July 15–19, 2012. This notice contains information about significant items on the NCWM Committee agendas which will be considered at the meetings, but does not include all agenda items. As a result, the items are not consecutively numbered.

DATES: The meeting will be held on July 15–19, 2012.

ADDRESSES: The meeting will be held at the Holiday Inn by the Bay, 88 Spring Street, Portland, Maine 04101.

FOR FURTHER INFORMATION CONTACT: Ms. Carol Hockert, Chief, NIST, Office of Weights and Measures, 100 Bureau Drive, Stop 2600, Gaithersburg, MD 20899–2600; by telephone (301) 975–5507; or by email at Carol.Hockert@nist.gov. The meetings are open to the public, but a paid registration is required. Please see NCWM Publication 16 “National Conference on Weights and Measures Committee Reports for the 97th Annual Meeting” on the Web (<http://www.ncwm.net> or <http://www.nist.gov/pml/wmd>) to view the meeting agendas, registration forms, and hotel information.

SUPPLEMENTARY INFORMATION:

Publication of this notice on the NCWM’s behalf is undertaken as a public service; NIST does not endorse,

approve, or recommend any of the proposals contained in this notice or in the publications of the NCWM.

The NCWM is an organization of weights and measures officials of the states, counties, and cities of the United States, federal agencies, and private sector representatives. These meetings bring together government officials and representatives of business, industry, trade associations, and consumer organizations on subjects related to the field of weights and measures technology, administration and enforcement. NIST participates to promote uniformity among the states in laws, regulations, methods, and testing equipment that comprise the regulatory control of commercial weighing and measuring devices.

The following are brief descriptions of some of the significant agenda items that will be considered at the NCWM Annual Meeting. Comments will be taken on these during several public comment sessions. At this stage, the items are proposals. This meeting also includes work sessions in which the Committees may also accept oral or written comments, and where they will finalize recommendations for NCWM consideration and possible adoption at its voting sessions, which are scheduled for July 18–19, 2012. The Committees may withdraw or carryover items that need additional development.

The Specifications and Tolerances Committee (S&T Committee) will consider proposed amendments to NIST Handbook 44, “Specifications, Tolerances, and other Technical Requirements for Weighing and Measuring Devices.” Those items address weighing and measuring devices used in commercial applications, that is, devices that are used to buy from or sell to the public or used for determining the quantity of product sold among businesses. Issues on the agenda of the NCWM Laws and Regulations Committee (L&R Committee) relate to proposals to amend NIST Handbook 130, “Uniform Laws and Regulations in the area of Legal Metrology and Engine Fuel Quality” and NIST Handbook 133, “Checking the Net Contents of Packaged Goods.”

NCWM Specifications and Tolerances Committee

The following items are proposals to amend NIST Handbook 44:

Item 320–4, UR.1.2. Grain Hopper Scales

The Committee will consider a proposal to add language to NIST Handbook 44 to clarify the requirement that hopper scales manufactured as of

January 1, 1986, used to weigh grain, must be Accuracy Class III weighing devices. The submitter of this proposal believes that this revision is needed to help ensure that weights and measures officials uniformly apply the handbook’s tolerances and other technical and use requirements to grain hopper scales.

Item 321–1, Belt-Conveyor Scale Systems

The Committee will consider a proposal to add language to NIST Handbook 44 to add a new specification requiring these scales to have an automatic zero ready indicating device. The proposal also includes a requirement that users maintain equipment in accordance with the manufacturer’s instructions and that a zero balance condition be established immediately prior to weighing a commodity for a commercial transaction.

Liquid Measuring Devices

Some gasoline and fuel retailers offer a variety of discounts to consumers on fuel prices in connection with marketing services and dispensing product. The Committee will consider the following proposal to modify Section 3.30. Liquid-Measuring Devices. The intent of this proposal is to require that retailers provide consumers with adequate transaction information to assist them in making value comparisons and ensure transparency when fuel purchases are discounted after a delivery.

Item 330–1 includes seven proposed requirements:

S.1.6.4.1. Unit Price

This proposal would modify device specifications to recognize current marketing practices of offering pre or post delivery discounts on fuel prices and require the final unit price information to be displayed.

S.1.6.5.4. Selection of Unit Price

This proposal would allow device manufacturers greater flexibility in the design and operation of customer operated controls on motor-fuel dispensers by recognizing the use of new technology in the selection of a unit price.

S.1.6.6. Agreement Between Indications

This proposal would exempt “total money values” displays on the dispenser and auxiliary equipment (such as the display on a remote control console in an operator’s kiosk) from agreement requirements when retailers
