### Animal and Plant Health Inspection Service

*Title:* Health Certificate for the Export of Live Crustaceans, Finfish, Mollusks, and Related Products.

*OMB Control Number:* 0579-0278.

*Summary Of Collection:* The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, or eradicate pests or diseases of livestock or poultry. The AHPA is contained in Title X, Subtitle E, Sections 10401-18 of Public Law 107-171, May 13, 2002, the Farm Security and Rural Investment Act of 2002. The Animal and Plant Health Inspection Service (APHIS) maintains information regarding the import health requirements of other countries for animals and animal products exported from the United States.

*Need and Use of the Information:* APHIS requires U.S. exporters to complete an export health certificate before exporting any live crustaceans and their gametes, live finfish, and their gametes, or live mollusks and their gametes, if requested by the importing country. The certificate will be completed by an accredited veterinarian with assistance from the producer, and must be signed by the accredited veterinarian and endorsed by APHIS as the competent Federal authority who certifies the health status of the shipment being exported. The health certificate identifies the names of the species being exported from the U.S., their age and weights, and whether they are cultured stock or wild stock; their place of origin, their country of destination and the date and method of transport. If this information were not collected, or collected less frequently, export trade would decrease. These certificates allow APHIS to address the increasing health attestations of importing countries with minimal burden to the public.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 69.

*Frequency of Responses:* Reporting: On occasion.

*Total Burden Hours:* 1,020.
