SUPPLEMENTARY INFORMATION:

The Specialty Crop Committee was established in accordance with the Specialty Crops Competitiveness Act of 2004 under Title III, Section 303 of Public Law 108–465. This Committee is a permanent subcommittee of the National Agricultural Research Extension, Education, and Economics Advisory Board (the Board). The listening session will elicit stakeholder input from industry and state representatives, national organizations and institutions, local producers, and other groups interested in the issues with which the Specialty Crop Committee is charged. This session will be an opportunity to share ideas on the specialty crop industry with members of USDA's Specialty Crop Committee, including: measures designed to improve the efficiency, productivity, and profitability of specialty crop production in the United States; measures designed to improve competitiveness through research, extension, and economics programs affecting the specialty crop industry; and programs that would: enhance quality and shelf-life, development of new crop protection tools, preventing foreign invasive pests and diseases, developing new and improved marketing tools, and enhancing food safety, improvement of mechanization of production practices, and enhancing irrigation techniques. Input received will help formulate recommendations from the Specialty Crop Committee to USDA.

Written comments by attendees and other interested stakeholders will be welcomed as additional public input by December 21, 2015. All verbal and written statements will become part of the official public record of the REE Advisory Board Office.

Abstract: To provide more timely and efficient services to the growing number of applicants to SNAP, State and local SNAP offices are partnering with CBOs that have the capacity to provide application assistance and conduct applicant interviews for SNAP across five (5) States. FNS has approved these partnerships as part of a demonstration of "Community Partner Interviewer Projects." In 2015, FNS released a report that assessed whether the use of CBOs to conduct SNAP applicant interviews had an impact on SNAP program performance. Specific program outcomes included efficiency, payment accuracy and client satisfaction. FNS has extended the demonstration projects, and to further assess the impact of these SNAP–CBO partnerships on SNAP program outcomes, FNS is seeking to collect additional data from the five States that are participating in the demonstration.

The information collection plan for this follow-up includes a satisfaction survey to be completed by SNAP
