* The pelagic shelf rockfish (PSR) species group has been changed to “dusky rockfish” in some NMFS publications, such as the 2012 and 2013 groundfish harvest specifications for the GOA (77 FR 10669, February 23, 2012). The North Pacific Fishery Management Council recommended the removal of widow and yellowtail rockfish from the PSR species group at its October 2011 meeting, leaving the single species, dusky rockfish. NMFS intends to propose GOA fishery management plan and regulatory amendments to dissolve the PSR species group and substitute a description of the dusky rockfish target fishery, and revise the description of the “other rockfish” fishery in the GOA fishery management plan to include widow and yellowtail rockfish.

** NMFS uses the average annual price when no landings are reported.
