

- More agreement on the meaning of drinking water source contamination prevention and the near term milestones;

- Better coordination with water pollution prevention programs to make sure that source water contamination prevention is an integral part of comprehensive water quality planning and protection effort;

- Increased clarity and understanding over the players and their roles in source water contamination prevention; and

- National consensus on the best way to measure progress for source water contamination prevention, and the data needed at the national level.

The tentative meeting agenda is as follows:

I. Welcome and Charge 9:00–9:15; Cynthia Dougherty, Director, EPA Office of Ground Water and Drinking Water (OGWDW)

II. Overview of Strategic Plan 9:15–10; Bill Diamond, Director, EPA Drinking Water Protection Division (DWP), OGWDW Discussion 10–11; Facilitator

III. Presentation and Discussion of a National Goal; 11:15–12:45 Joan Harrigan-Farrelly, EPA DWP, OGWDW

IV. Measuring Achievement; 1:45–3:00. Presentation and open discussion of proposed measures and the process for identifying national measures for source water contamination prevention Roy Simon, EPA, DWP, OGWDW

EPA encourages input from all interested public, even those unable to attend the meeting. Copies of the draft strategy will be made available to anyone requesting copies.

Date: September 11, 2000, 9 am to 3 pm

Location: Embassy Suites Hotel, 1900 Diagonal Road, Alexandria, VA.

FOR FURTHER INFORMATION CONTACT: Please register with the Safe Drinking Water Hotline (800) 426-4791, or by e-mail, HOTLINE-SDWA@EPA.GOV. Registrants will receive an agenda and background materials, including a draft strategy prior to the meeting.

Dated: July 24, 2000.

Cynthia C. Dougherty,
Director, Office of Ground Water and Drinking Water.

ENVIRONMENTAL PROTECTION AGENCY

[FRL–6842–8]

Massachusetts Marine Sanitation Device Standard; Notice of Determination Buzzards Bay

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: On June 16, 2000, notice was published that the State of Massachusetts had petitioned the Regional Administrator, Environmental Protection Agency, to determine that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for all waters of Buzzards Bay. The petition was filed pursuant to section 312(f)(3) of Public Law 92–500, as amended by Public Laws 95–217 and 100–4, for the purpose of declaring these waters a “No Discharge Area” (NDA).

Section 312(f)(3) states: After the effective date of the initial standards and regulations promulgated under this section, if any State determines that the protection and enhancement of the quality of some or all of the waters within such States require greater environmental protection, such State may completely prohibit the discharge from all vessels of any sewage, whether treated or not, into such waters, except that no such prohibition shall apply until the Administrator determines that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for such water to which such prohibition would apply.

The information submitted to me by the State of Massachusetts certified that

there are thirty disposal facilities available to service vessels operating in Buzzards Bay. A list of the facilities, phone numbers, locations, and hours of operation is appended at the end of the determination.

Based on the examination of the petition and its supporting information, which included site visits by EPA New England staff, I have determined that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the area covered under this determination which include all of Buzzards Bay.
