Approval and Promulgation of Air Quality Implementation Plans; Commonwealth of Virginia; Repeal of Emission Standards for Perchloroethylene Dry Cleaning Systems

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA proposes to approve the State Implementation Plan (SIP) revision submitted by the Commonwealth of Virginia (Virginia). This action proposes to approve Virginia's repeal of its emission standards for perchloroethylene dry cleaning systems. In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this action, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time.

DATES: Comments must be received in writing by January 15, 2003.

ADDRESSES: Written comments should be addressed to Walter Wilkie, Acting Chief, Air Quality Planning and Information Services Branch, Mailcode 3AP21, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. New Jersey: Proposed Authorization of State Hazardous Waste Program Revision

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: Pursuant to the Resource Conservation and Recovery Act, as amended, 42 U.S.C. 6901 *et seq.* ("RCRA"), and the regulations thereunder, the State of New Jersey (the "State") applied for final authorization of changes to its hazardous waste program. These revisions were adopted by the State in January 1999. The Environmental Protection Agency, Region 2 ("EPA") has reviewed the State's application and has determined that the State's revisions to its hazardous waste program satisfy all of the requirements necessary to qualify for final authorization. Accordingly, EPA proposes to grant final authorization to the State for these revisions, which are described in the "Rules and Regulations" section of today's **Federal Register**. In that section, EPA is authorizing the revisions by an immediate final rule. EPA did not publish a proposal prior to the immediate final rule because EPA believes that this action is not controversial and does not expect comments that oppose it. EPA has

explained the reasons for this authorization in the preamble to the immediate final rule. Unless EPA receives written comments which oppose this authorization during the comment period, the immediate final rule will become effective on the date set forth therein, and EPA will not take further action on this proposal. If EPA receives comments that oppose this action, EPA shall withdraw the portion of the immediate final rule that is the subject of the comments, and it will not take effect.

EPA shall then respond to those public comments opposing this authorization in a second final authorization notice. This second final notice may or may not include changes based on comments received during the comment period. Interested persons may not have another opportunity for comment. Therefore, if you want to comment on this proposal, you must do so at this time.

DATES: Comments on this action must be received by the close of business on January 15, 2003.

ADDRESSES: Written comments should be sent to Walter M. Mugdan, Director, Division of Environmental Planning and Protection, U.S. EPA, Region 2, 290 Broadway, New York, New York 10007-1866, (212) 637-3724.
