Accession Number: 20231116-5129. Comment Date: 5 p.m. ET 11/28/23.

Any person desiring to protest in any the above proceedings must file in accordance with Rule 211 of the Commission's Regulations (18 CFR 385.211) on or before 5:00 p.m. Eastern time on the specified comment date.

The filings are accessible in the Commission's eLibrary system (https://elibrary.ferc.gov/idmws/search/fercgensearch.asp) by querying the docket number.

eFiling is encouraged. More detailed information relating to filing requirements, interventions, protests, service, and qualifying facilities filings can be found at: http://www.ferc.gov/docs-filing/efiling/filing-req.pdf. For other information, call (866) 208–3676 (toll free). For TTY, call (202) 502–8659.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ ferc.gov.

Dated: November 17, 2023.

#### **DEPARTMENT OF ENERGY**

#### Federal Energy Regulatory Commission

[Project No. 6951-000]

# Tallassee Shoals, LLC; Notice of Authorization for Continued Project Operation

The license for the Tallassee Shoals Hydroelectric Project No. 6951 was issued for a period ending September 30, 2023

Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee(s) under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of

section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 6951 is issued to Tallassee Shoals, LLC for a period effective October 1, 2023, through September 30, 2024, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before September 30, 2024, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to section 15 of the FPA, notice is hereby given that Tallassee Shoals, LLC is authorized to continue operation of the Tallassee Shoals Hydroelectric Project under the terms and conditions of the prior license until the issuance of a subsequent license for the project or other disposition under the FPA, whichever comes first.

Dated: November 17, 2023.

[EPA-HQ-OAR-2023-0194; FRL-11557-01-OAR]

EPA Determinations of Compliance and Applicability Under CAA 111, 112, and 129 Dashboard: EPA Formal Responses to Inquiries Concerning Compliance With the Clean Air Act Stationary Source Program (Since May 2019)

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of availability.

SUMMARY: This notice announces the availability of applicability determinations, alternative monitoring decisions, and regulatory interpretations made by the Environmental Protection Agency (EPA) with regard to the New Source Performance Standards (NSPS); the National Emission Standards for Hazardous Air Pollutants (NESHAP); the Emission Guidelines and Federal Plan Requirements for existing sources; and/or the Stratospheric Ozone Protection Program.

**FOR FURTHER INFORMATION CONTACT:** An electronic copy of each complete document posted on the Clean Air Act 111, 112, and 129 Dashboard, which

contains determinations signed after May 2019, is available on the internet through the Resources and Guidance Documents for Compliance Assistance page of the Clean Air Act Compliance Monitoring website under "Air" at: https://www.epa.gov/complying-airemissions-standards-stationary-sources/ epa-determinations-compliance-and. All previously issued responses are posted on the Applicability Determination Index (ADI) data system available on the internet through the Resources and Guidance Documents for Compliance Assistance page of the Clean Air Act Compliance Monitoring website under "Air" at: https:// www.epa.gov/compliance/resourcesand-guidance-documents-complianceassistance.

The letters and memoranda on the Clean Air Act 111, 112, and 129
Dashboard may be located by facility name, affected subpart, or by response date and is searchable by string word searches. For questions about the Clean Air Act 111, 112, and 129 Dashboard or this notice, contact Diana Felix, Air Quality Policy Division, Operating Permits Group; telephone number: (919) 541–7627; email address: felix.diana@epa.gov.

#### SUPPLEMENTARY INFORMATION:

#### **General Information**

The General Provisions of the NSPS in 40 Code of Federal Regulations (CFR) part 60 and the General Provisions of

the NESHAP in 40 CFR part 61 provide that a source owner or operator may request a determination of whether certain intended actions constitute the commencement of construction, reconstruction, or modification. 40 CFR 60.5 and 61.06. The General Provisions in part 60 also apply to Federal and EPA-approved state plans for existing sources in 40 CFR part 62. See 40 CFR 62.02(b)(2). The EPA's written responses to source or facility-specific inquiries on provisions in parts 60, 61 and 62 are commonly referred to as applicability determinations. Although the NESHAP part 63 regulations [which include Maximum Achievable Control Technology (MACT) standards and/or Generally Available Control Technology (GACT) standards] contain no specific regulatory provision providing that sources may request applicability determinations, the EPA also responds to written inquiries regarding applicability for the part 63 regulations. In addition, the General Provisions in parts 60 and 63 allow sources to seek permission to use monitoring or recordkeeping that is different from the promulgated requirements. See 40 CFR 60.13(i), 61.14(g), 63.8(b)(1), 63.8(f), and 63.10(f). The EPA's written responses to these inquiries are commonly referred to as alternative monitoring decisions. Furthermore, the EPA responds to written inquiries about the broad range of regulatory requirements in 40 CFR parts 60 through 63 as they pertain to

a whole source category. These inquiries may pertain, for example, to the type of sources to which the regulation applies, or to the testing, monitoring, recordkeeping, or reporting requirements contained in the regulation. The EPA's written responses to these inquiries are commonly referred to as regulatory interpretations.

The EPA previously compiled EPA-issued NSPS and NESHAP applicability determinations, alternative monitoring decisions, and regulatory interpretations, and posted them to the ADI. As of October 2, 2023, the EPA determinations of compliance and applicability under Clean Air Act 111, 112, and 129 will be posted to the Clean Air Act 111, 112, and 129 Dashboard. The Clean Air Act 111, 112, and 129 Dashboard is a data system, accessed via the internet, containing all determinations signed after May 2019.

This notice comprises a list of 173 such documents added to the Clean Air Act 111, 112, and 129 Dashboard on October 2, 2023. This notice lists the title of each letter and memorandum. Complete copies of these documents may be obtained from the Clean Air Act 111, 112 and 129 Dashboard on the internet through the Resources and Guidance Documents for Compliance Assistance page of the Clean Air Act Compliance Monitoring website under "Air" at: https://www.epa.gov/compliance/resources-and-guidance-documents-compliance-assistance.

### APPLICABILITY DETERMINATIONS, ALTERNATIVE MONITORING PLANS AND REGULATORY INTERPRETATIONS UPLOADED TO CLEAN AIR ACT 111, 112, AND 129 DASHBOARD ON OCTOBER 2, 2023

| Facility name  | Title   | Affected subpart   | Date of response         |
|--|---|--|--------------------------|
| East Carolina Regional Solid Waste Landfill<br>Eaton Corporation—Auburn Facility | Other Request—Well Decommissioning Applicability Determination for Stationary Combustion Engines. | Part 62, Subpart OOOPart 63, Subpart ZZZZ; Part 60, Subpart IIII | 2023–09–12<br>2023–09–07 |

### ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OPP-2017-0751; FRL-11376-02-OCSPP]

Pesticide Registration Review; Decisions and Case Closures for Several Pesticides; Notice of Availability; Technical Correction

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice, correction.

SUMMARY: In the Federal Register of October 18, 2023, EPA issued a notice to announce the availability of EPA's interim registration review decisions for the following chemicals: Citric acid and salts, and linalool; and the closure of the registration review case for triadimenol. That notice incorrectly included a DATES section that established a comment deadline of December 18, 2023. A comment period is not necessary or appropriate for that document because the decisions announced in that document are final for triadimenol, and final for the interim phase of the process for citric acid and salts, and linalool. This document corrects that document

by reaffirming the nature of all the decisions announced in that document and by closing the comment period it incorrectly established.

**DATES:** The comment period established in the **Federal Register** of October 18, 2023, *i.e.*, December 18, 2023, is hereby closed on November 24, 2023.

ADDRESSES: The docket for this action, identified by docket identification (ID) number EPA-HQ-OPP-2017-0751, is available online at <a href="https://www.regulations.gov">https://www.regulations.gov</a>. Additional instructions for visiting the docket, along with more information about dockets generally, is available at <a href="https://www.epa.gov/dockets">https://www.epa.gov/dockets</a>.
