DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Judgment Under the Clean Air Act

On September 27, 2021, the Department of Justice lodged a proposed consent judgment with the United States District Court for the Eastern District of New York in the lawsuit entitled *United States of America v. The City of New York et al.*, Case No. 21-CV-5338.

The United States filed this lawsuit to seek civil penalties and injunctive relief for violations of the Clean Air Act, 42 U.S.C. 7401 *et seq.* (“CAA”). The alleged violations concern the New York City Department of Education’s (“NYCDOE”) failure to comply with the Area Source Boiler Rule 40 CFR 63 (the “Rule”) at approximately 1329 boilers located at 566 public school buildings across New York City. The Complaint alleges that NYCDOE failed to conduct timely tune ups and energy assessments under the Rule, and failed to provide required notifications to the Environmental Protection Agency (“EPA”).

The Consent Judgment requires NYCDOE to implement injunctive relief that includes: Conducting and documenting periodic tune-ups that will identify boilers in need of repair; implementing additional levels of quality review for completed tune-up reports; and providing periodic reports to the United States concerning boilers that are achieving less than 83% combustion efficiency. Further, to mitigate excess emissions caused by NYCDOE’s non-compliance, the proposed Consent Judgement requires NYCDOE to convert to natural gas or replace seven large boilers that use number 4 oil prior to March 2023. The Consent Judgment also requires defendants to pay a civil penalty of \$1,000,000.

The publication of this notice opens a period for public comment on the proposed Consent Judgment. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *The City of New York, New York City Department of Education*, Civil Action No. 21-CV-5338, D.J. Ref. No. 90-5-2-1-11718. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

Abstract: The NSF Innovation Corps (I-Corps) Teams Program Executive Summary is an important component of the NSF I-Corps Teams pre-submission process and conveys information needed to direct the proposed team project to the appropriate NSF Program Director (PD) for review and possible proposal submission invitation. This Executive Summary (ES) is to be submitted by the applying team to the cognizant I-Corps Team's PD outlining solicitation-specific aspects of the project (such as proposed team members, technology, commercial application and NSF lineage). In the past, this ES was submitted via email as an attached two-page (maximum) document and was often in varying formats or missing some parts of the required ES elements. The NSF I-Corps Teams Executive Summary Form captures the same requested information, as outlined in NSF I-Corps Teams Program solicitation, but all within one secure, web-based form. In specific, the form collects submitting team member information (composition, roles and a brief description of each member's qualifications), Principal Investigator (PI) information (and a brief description of their connection to the team), NSF lineage (relevant current or previous NSF awards), brief descriptions of: the core technology, the potential commercial application, and the current commercialization plan for the proposed technology. If the proposed I-Corps Team is applying based on participation in a local or regional NSF I-Corps Hub, Node or Site training session, the form will provide fields for the applying team to complete regarding the associated I-Corps Hub, Node or Site senior member's contact information (as a reference), the date of participation, and location of the associated Hub, Node or Site program.
